EQUAL EDUCATIONAL OPPORTUNITIES

In recognition of the diversified characteristics and needs of our students and with the keen desire to be responsive to them, the School Committee will make every effort to protect the dignity of the students as individuals. It also will offer careful consideration and sympathetic understanding of their personal feelings, particularly with reference to their race, color, sex, gender identity, religion, national origin, sexual orientation, homeless status, physical and intellectual differences, pregnancy or pregnancy related condition.

To accomplish this, the Committee and its staff will make every effort to comply with the letter and the spirit of the Massachusetts equal educational opportunities law which prohibits discrimination in public school admissions and programs.

This will mean that every student will be given equal opportunity in school admission, admissions to courses, course content, support services, and extracurricular and athletic activities.

All implementing provisions issued by the Board of Elementary and Secondary Education in compliance with this law will be followed.

EDUCATIONAL EQUITY

The School Committee's goal is to strive to address the needs of every student in our school, subject to budgetary, space and other limitations.

Educational equity for the purpose of this policy is defined as providing all students, as reasonably practical, the high quality instruction and support they need to reach and exceed a common standard.

To achieve educational equity the district will commit to:

1. Systematically, when appropriate, use district-wide and individual school level data, disaggregated by race/ethnicity, gender/gender identity, national origin, language, special education, socioeconomic status and mobility to inform district decision making.
2. Raise the achievement of all students.
3. Graduate all students ready to succeed in a diverse local, national and global community.

In order to reach the goal of educational equity, as reasonably practical, for each and every student, the District shall:

1. Provide every student with access to high quality curriculum, support, and other educational resources.
2. Seek to promote educational equity as a priority in professional development.
3. Endeavor to create schools with a welcoming and inclusive culture and environment.
4. Provide multiple pathways to success in order to meet the needs of the diverse student body and actively encourage, support and expect high academic achievement for each student.

The Superintendent/Principal shall include equity practices in the district's strategic plan and goal strategies to implement this policy. The Superintendent/Principal, upon request, will periodically report to the Committee the progress of the implementation of this policy.

Amended and Adopted for LSSC Policy Manual: 12/21/21

SCHOOL ADMISSIONS

All children of school age who reside in the district will be entitled to attend the public schools, as will certain children who do not reside in the district but who are admitted under School Committee policies relating to nonresident students or by specific action of the School Committee.

Every student seeking admission to school for the first time must present a birth certificate or equivalent proof of age acceptable to the Superintendent/Principal and proof of vaccination and immunizations as required by the state and the School Committee. Proof of residency of the individual holding legal guardianship may also be required by the school administration.

RESIDENCY POLICY

The Lincoln-Sudbury Regional School Committee feels that students best flourish in a supportive school environment that is in concert with an equally supportive home environment. With the exception of rare and unique circumstances, a student's residence is the home where his or her parent(s) or legal guardian(s) reside. In circumstances where parents or guardians live separately and custody is shared, or another arrangement exists, one guideline that the Superintendent/Principal will use in any residence consideration is whether or not the district is the principal location of the student's domestic, social and civil life.

In order to attend Lincoln-Sudbury Regional High School, a student must be a resident dependent, with his/her parent(s) or legal guardian(s), of either the Town of Lincoln or the Town of Sudbury as defined in MA General Law Chapter 76, Section 5 or qualify in accordance with one of the following exceptions:

- A student participating in the METCO Program
- A student participating in a Student Exchange Program
- A student whose parent or legal guardian is an employee of Lincoln-Sudbury Regional School District (teacher, administrator, clerical, educational support or buildings & grounds) who works a minimum of 20 hours per week and who would also be eligible for such benefits as health insurance.
- A student whose parent or legal guardian is a faculty member of the Lincoln or Sudbury Public Schools, provided that said school districts have a policy which provides dependent children of Lincoln-Sudbury Regional School District employees equivalent access and said policy is implemented in the same manner as this policy is implemented.

Procedures for enrollment, including all requirements for documentation, will be available from the Director of Student Services and/or the Superintendent/Principal. In any circumstances involving legal guardianship, documentation confirming a decision in the courts to this effect must be available to the District upon request. In addition, the District retains the right to require the production of a variety of records and documents to verify residence.

Dependents of employees of Lincoln-Sudbury Regional School District, Lincoln Public School or Sudbury Public Schools are permitted to attend Lincoln-Sudbury as long as they remain employed by said school district and provided the student's educational needs can be met within the school and its academic and support services.

Non-Resident Students

- A. Non-resident employees desiring to enroll a dependent child(ren) shall apply to the Superintendent/Principal in writing. Procedures for enrollment will be available from the Superintendent/Principal.

- B. Once enrollment is approved, the child(ren) of a nonresident employee will be permitted to remain a student of LSRHS until completion of his/her senior year, except that a student whose parent leaves the employ of LSRHS or the Lincoln or Sudbury Public Schools may continue to attend LSRHS only for the balance of the current semester.
- C. The non-resident employee will be responsible for the transport of his/her child(ren) to and from school.

Resident Senior Students Who Move After the Official Opening of School

The Lincoln-Sudbury Regional School Committee recognizes that stability is important in a student's educational career, especially for the final year of high school. Therefore, the LSRSC will allow any resident senior whose parent or legal guardian moves from Lincoln or Sudbury after the start of the school year one of the following opportunities:

- A. Should the parent or legal guardian leave the District after the opening of the fall semester of the student's senior year, the District will allow for the student to remain in attendance through the conclusion of midterm (first semester) exams. Thereafter, as and if necessary, the student will be expected to be educated in the community in which the parent(s) or legal guardian(s) reside. In addition, should the parent or legal guardian desire for the senior student to remain in the District through the conclusion of second semester, the parent or guardian shall pay the District one semester's tuition in full prior to the start of second semester.
- B. Should the parent or legal guardian leave the District after the conclusion of midterm (first semester) exams of the student's senior year, the District will allow for the student to remain in attendance through the conclusion of second semester in order to complete his or her senior year.

Transportation of senior students in these circumstances will be the responsibility of the parent(s) or legal guardian(s) once the parent(s) or legal guardian(s) have left the District.

In good faith, reasonable effort will be made by the Administration to work with students to complete studies in line with LSRHS graduation requirements and receive an LS diploma should the fall semester be the concluding semester of studies within the District for the student.

Temporary Residence

In accordance with Massachusetts law, if a child resides temporarily in Lincoln or Sudbury for the specific purpose of attending school, but the legal residence of the child's parent(s) or guardian(s) is not in Lincoln or Sudbury, the School District may recover the tuition from the parent(s) or legal guardian(s).

Prospective Residents of Lincoln or Sudbury Awaiting Occupancy

For evidence of residency, a fully signed and executed Purchase and Sale (P&S) Agreement can be used, provided the occupancy date occurs before a student can be enrolled in the district. Evidence of occupancy must be provided for enrollment.

This policy makes every effort to provide guidance and support for the Superintendent/Principal and District Administration in most circumstances. There may remain unique circumstances that may require specific deliberation, discretion and a decision by the Superintendent/Principal and/or the School Committee that may result in policy exceptions, should circumstances so warrant. The Superintendent/Principal will be responsible for keeping the School Committee Chair duly informed of special circumstances, issues and concerns that may arise in the enforcement of this policy.

The School Committee reserves the right to limit the space available to ensure the maintenance of appropriate class sizes and to avoid overcrowding.

Nothing in this policy shall supersede any provision of any collective bargaining agreement. The Lincoln-Sudbury Regional School Committee will review this policy annually.

METCO

The Lincoln-Sudbury Regional School District participates in the METCO voluntary school integration program to provide instruction for Boston students wishing to pursue their education at LSRHS, in cooperation with the Metropolitan Council for Educational Opportunity, Inc. (METCO) and the State Department of Education,

The District supports the mission and purposes of METCO, as stated in the METCO Parent Handbook:

METCO's mission is to provide, through professional leadership and voluntary citizen action, the development and promotion of quality integrated educational opportunities for urban and suburban students in the greater Boston community and to work toward the expansion of a collaborative education program with the Boston and suburban school systems.

METCO is a state-funded program which provides:

1. An opportunity for an integrated public school education for children of color from racially imbalanced schools in Boston by placing them in suburban schools
2. A new learning experience for suburban children;
3. A closer understanding and cooperation between urban and suburban parents and other citizens in the Metropolitan Boston Area.

Adopted 3/11/03

Adopted for LSSC Policy Manual: 12/21/21

ADMISSION OF TRANSFER STUDENTS

The school district will enroll and place students who have left Commonwealth charter schools by adhering to the same policies and procedures in place for any other student enrolling in the school district including, but not limited to, examination of the course of study and level of academic attainment of the student when determining the student's appropriate grade placement or eligibility for high school graduation.

To the same extent provided for other students enrolling in the school district, students who enroll in the school district from a Commonwealth charter school shall be subject to the graduation requirements of the school district, may have certain graduation requirements waived, and may make-up certain graduation requirements.

LEGAL REFS.: Chapter 12, Section 11 of the Acts of 2010

SOURCE: MASC February 2011

Adopted for LSSC Policy Manual: 12/21/21

HOMELESS STUDENTS: ENROLLMENT RIGHTS AND SERVICES

As required by law, the district will work with homeless children and youth and unaccompanied youth¹ (collectively, “homeless students”) as well as their families or legal guardians to provide stability in school attendance and other services. Special attention will be given to ensuring the enrollment and attendance of homeless students not currently attending school. Homeless students will be provided district services for which they are eligible, including Title I, similar state programs, special education, bilingual education, vocational and technical education programs, school nutrition programs, and extracurricular activities.

Homeless students are defined as lacking a fixed, regular and adequate nighttime residence, including:

1. Sharing the housing of other persons due to loss of housing, economic hardship, or similar reason;
2. Living in motels, hotels, trailer parks or camping grounds due to the lack of alternative adequate accommodations;
3. Living in emergency or transitional shelters;
4. Being abandoned in hospitals;
5. Living in public or private places not designed for or ordinarily used as regular sleeping accommodations for human beings;
6. Living in cars, parks, public spaces, abandoned buildings, substandard housing, transportation stations or similar settings; and
7. Migratory children living in conditions described in the previous examples.

Students Remaining in Schools of Origin

It is presumed to be in the best interest of homeless students to remain in their schools of origin, i.e. the school that the student was attending at the time he or she became homeless, or the last school the student attended prior to becoming homeless. Homeless students may continue to attend their school of origin for as long as they remain homeless or until the end of the academic year in which they obtain permanent housing. For homeless students who complete the final grade level served by the school of origin, the term “school of origin” shall also include the receiving school in the same school district educating students at the next grade level.

¹ “A homeless child or youth not in the physical custody of a parent or guardian.” 42 USC §11434a.

Homeless students are entitled to transportation comparable to that provided for all other students attending school in the district. The district will transport students who are sheltered or temporarily residing within the district to the students' school of origin. For homeless students attending a school of origin located outside the district in which the student is sheltered or temporarily residing, the district in which the school of origin is located will coordinate with the district in which the student is sheltered or temporarily residing to provide the transportation services necessary for the student, and these districts will divide the cost equally. Formerly homeless students who find permanent housing mid-school year will continue to receive transportation services until the end of the school year.

Students Enrolling in District Where Sheltered or Temporarily Residing

Parents or guardians may elect to enroll homeless students in the school district in which the student is sheltered or temporarily residing, rather than having the student remain in the school of origin. Enrollment changes for homeless students should take place immediately.

If homeless students are unable to provide written proof of their shelter or temporary residence in the district, the homeless liaison will work with the family seeking enrollment to determine homelessness. Information regarding a homeless student's living arrangement shall be considered a student education record, and not directory information. Records containing information about the homeless student's living arrangement may not be disclosed without the consent of the parent or satisfaction of another student-privacy related exemption.

If the student does not have immediate access to immunization records, the student shall be permitted to enroll under a personal exception. Students and families should be encouraged to obtain current immunization records or immunizations as soon as possible, and the district liaison is directed to assist. Emergency contact information is required at the time of enrollment consistent with district policies, including compliance with the state's address confidentiality program when necessary. After enrollment, the district will immediately request available records from the student's previous school.

Attendance rights by living in attendance areas, other student assignment policies, or intra- and inter-district choice options are available to homeless families on the same terms as families who reside in the district. Accordingly, the district will provide transportation services to school in a manner comparable to the transportation provided for all other students in the district.

Dispute Resolution

If the district disagrees with a parent or guardian's decision to keep a student enrolled in the school of origin and considers enrollment in the district where the student is sheltered or temporarily residing to be in the student's best interest, the district will explain to the parent, in writing and in a language the parent can understand,² the rationale for its determination and provide parent with written notice of their

² Translation of communications of this type is required by Title I, among other laws. *See, e.g.* 20 USC § 6312.

rights to appeal the district's determination to the Massachusetts Department of Elementary and Secondary Education³. During the pendency of any such appeal, the student should remain enrolled in the school selected by the parent or guardian, receiving transportation to school and access to other available services and programs.

The Massachusetts Department of Elementary and Secondary Education's Advisory on Homeless Education Assistance contains additional information about educating homeless students and the appeal process. This advisory is available at the following link: <http://www.doe.mass.edu/mv/haa/mckinney-vento.docx>

Homeless Liaison

The Superintendent shall designate an appropriate staff person to be the district's liaison for homeless students and their families. The district's liaison for homeless students and their families shall coordinate with local social service agencies that provide services to homeless children and youths and their families; other school districts on issues of transportation and records transfers; and state and local housing agencies responsible for comprehensive housing affordability strategies. This coordination includes providing public notice of the educational rights of homeless students in locations such as schools, family shelters and soup kitchens. The district's liaison will also review and recommend amendments to district policies that may act as barriers to the enrollment of homeless students. The liaison shall ensure district staff receive professional development and other support on issues involving homeless students.

EDUCATIONAL OPPORTUNITIES FOR MILITARY CHILDREN

To facilitate the placement, enrollment, graduation, data collection, and provision of special services for students transferring into or out of the District because of their parents or guardians being on active duty in the U.S. Armed Services, the District supports and will implement its responsibilities as outlined in the Interstate Compact on Educational Opportunity for Military Children. The district believes it is appropriate to remove barriers to educational success imposed on children of military families resulting from frequent moves required by parents' or guardians' military deployment.

Definitions

Children of military families: School aged children, enrolled in kindergarten through 12th grade, in the household of an active duty member of the uniformed service of the United States, including members of the National Guard and Reserve serving on active duty.

Deployment: The period one month before the service members' departure from their home station on military orders through six months after return to their home station.

Education(al) records: Official records, files, and data directly related to a student and maintained by the school including, but not limited to, records encompassing all the material kept in the student's cumulative folder.

Eligible students are children of military families as well as the children of veterans who have been severely injured and medically discharged, and children of active duty personnel who died on active duty. Children of retired active duty personnel are also eligible to receive services for one year following the discharge due to severe injury, or the retirement or death of an active military parent. The Compact does not apply to children of inactive Guard or Reserves, veterans and retired personnel not included above, or U.S. Department of Defense personnel and other federal civil service employees and contract employees.

The District's responsibilities to eligible students include the following:

- Sending schools must send either official or unofficial records with the moving students and Lincoln-Sudbury Regional High School will use those records for immediate enrollment and educational placement.
- Upon enrollment of an eligible student, Lincoln-Sudbury Regional High School will request official records and the sending schools shall respond within 10 days with the records.

- Immunization requirements of the District may be met within 30 days from the date of enrollment (or be in progress).
- Lincoln-Sudbury Regional School District will honor placement of students in all courses from the sending school, provided those courses are offered and space is available. Lincoln-Sudbury Regional High School will also initially honor placement of like programs to those of the student in the sending state, including, but not limited to, English as a Second Language programs. Lincoln-Sudbury Regional High School is not precluded from performing subsequent evaluations to ensure the appropriate placement and continued enrollment of the student in courses and programs.
- In compliance with federal law, the district will assume financial and programmatic responsibility for the special education programs of students with existing IEPs drafted in other states.
- As appropriate, the District will exercise the right to waive prerequisites for all courses and programs, while also maintaining its right to re-evaluate the student to ensure continued enrollment, also as deemed appropriate.
- Students of active duty personnel shall have additional excused absences, as necessary, for visitations relative to leave or deployment.
- An eligible student living with a noncustodial parent or other person standing in loco parentis shall be permitted to continue to attend school at LSRHS without any tuition fee imposed. Documentation of such arrangement and parent/guardian written permission will be required.
- LSRHS will accept exit or end-of-year exams required from the sending state, national norm-referenced tests, or alternate testing instead of testing requirements for graduation in Massachusetts. If this is not possible, the alternative provision of the Interstate Compact shall be followed to facilitate the on-time graduation of the student in accordance with Compact provisions.

LEGAL REFS: M.G. L. [15E](#);
Interstate Compact on Educational Opportunity for Military Children

SOURCE: MASC October 2019
Adopted for LSSC Policy Manual: 12/21/21

EDUCATIONAL OPPORTUNITIES FOR CHILDREN IN FOSTER CARE

The purpose of this policy is to ensure the educational stability of students in foster care. Educational stability has a lasting impact on students' academic achievement and wellbeing, and the School Committee is committed to supporting all efforts to ensure that students in foster care have equal access to high-quality, stable educational experiences from preschool (if offered) through high school graduation.

Irrespective of the location of a foster care placement, students in foster care will continue to attend their school of origin, unless after a collaborative decision-making process, it is determined to be in the student's best interest to enroll in and attend school in the district in which the student resides in foster care. Enrollment of students in the district where they reside in foster care will take place immediately upon such a determination.

The district has designated a point of contact for students in foster care. The district and the point of contact will collaborate with DCF to ensure that students can access transportation and the other services to which they may be entitled.

Best Interest Determination

Decisions about whether a student in foster care should continue to attend the school of origin should be made collaboratively by DCF, the student (as appropriate), the student's family and/or foster family (or, if different, the person authorized to make educational decisions on behalf of the student), the school and district of origin, and (when appropriate) the local district where the student is placed. Best interest determinations should focus on the needs of each individual student and account for unique factors about the student and his or her foster care placement. Every effort should be made to reach agreement regarding the appropriate school placement of a student in foster care; however, DCF will finalize the best interest determination if the relevant parties cannot agree on the best school for the student to attend.

The district can seek review of DCF's decision by utilizing a Foster Care School Selection Dispute Resolution Process established by DESE and DCF. Decisions made through this process are not subject to review. To the extent feasible and appropriate, the district will ensure that a child remains in his or her school of origin while the disputes are being resolved to minimize disruptions and reduce the number of moves between schools.

Transportation

The district of origin must collaborate with DCF on how transportation will be arranged and provided to ensure that students in foster care who need transportation to remain in their school of origin will receive such transportation while they are in foster care.

Transportation options may include using Title I funds, establishing regional collaborations among districts, coordinating with existing routes for transportation, seeking help from foster parent(s), etc. Absent other agreements between the district and DCF, the district of origin is responsible for providing transportation to and from the school of origin.

Immediate Enrollment

If it is in the best interest of a student in foster care to leave the school of origin, the student must be immediately enrolled in the district in which he or she resides in foster care. During enrollment of students in foster care, DCF representatives will present the district with a form indicating that the student is in foster care, along with a state-agency identification badge.

If the student does not have immediate access to immunization records, the student shall be permitted to enroll under a personal exception. Students and families should be encouraged to obtain current immunization records or immunizations as soon as possible, and the district liaison is directed to assist. Emergency contact information is required at the time of enrollment consistent with district policies, including compliance with the state's address confidentiality program when necessary. After enrollment, the district will immediately request available records from the student's previous school.

Attendance rights by living in attendance areas, other student assignment policies, or intra and inter-district choice options are available to students in foster care (homeless families) on the same terms as families who reside in the district. Accordingly, the district will provide transportation services to school in a manner comparable to the transportation provided for all other students in the district.

Adopted for LSSC Policy Manual: 12/21/21

SCHOOL CHOICE

It is the policy of this school district **not** to admit non-resident students under the terms and conditions of the Interdistrict School Choice Law. This decision must be reaffirmed annually prior to June 1st by a vote of the School Committee following a public hearing. In the event the School Committee votes to participate, the following local conditions would apply:

1. That by May 1 of every school year, the administration will determine the number of spaces in each school available to choice students.
2. That by June 1 of every school year, a public hearing will be held to review participation in the school choice program.
3. That resident students be given priority placement in any classes or programs within the district.
4. That the selection of non-resident students for admission when the number of requests exceeds the number of available spaces be in the form of a random drawing. There will be two drawings for this purpose. The first will take place during the last week of the current school year but no later than July 1st. The second will be conducted during the week immediately preceding the opening of the next school year and will be based on the possibility of unexpected additional openings.
5. Any student who is accepted for admission under the provisions of this policy is entitled to remain in the district until graduation from high school except if there is a lack of funding of the program.
6. The School Committee affirms its position that it shall not discriminate in the admission of any child on the basis of race, color, religion, national origin, sex, gender identity, age, sexual orientation, homelessness, ancestry, athletic performance, physical handicap, special need, pregnancy, pregnancy related condition, academic performance or proficiency in the English language.

BESE Regulations 603 CMR 26.00

STUDENT ABSENCES AND EXCUSES

Regular and punctual school attendance is essential for success in school. The Committee recognizes that parents/guardians of children attending our schools have special rights as well as responsibilities, one of which is to ensure that their children attend school regularly, in accordance with state law.

Therefore, students may be excused temporarily from school attendance for the following reasons: illness or quarantine; bereavement or serious illness in family; weather so inclement as to endanger the health of the child; and observance of major religious holidays.

A child may also be excused for other exceptional reasons with approval of the Superintendent/Principal or designee.

A student's understanding of the importance of day-to-day schoolwork is an important factor in the shaping of his character. Parents/guardians can help their children by not allowing them to miss school needlessly. Accordingly, parents/guardians will provide a written explanation for the absence or tardiness of a child. This will be required in advance for types of absences where advance notice is possible.

In instances of chronic or irregular absence reportedly due to illness, the school administration may request a physician's statement certifying such absences to be justified.

Student Absence Notification Program

Each Associate Principal or designee will notify a student's parent/guardian within 3 days of the student's absence in the event the parent/guardian has not informed the school of the absence.

Each Associate Principal or designee shall make a reasonable effort to meet with any student, and that student's parent/guardian, who has missed five (5) or more unexcused school days (a school day shall be equal to two (2) or more class periods in the same day) in a school year. The meeting shall be to develop action steps to improve student attendance and shall be developed jointly by the Associate Principal or designee, the student, and the student's parent/guardian. The parties may seek input from other relevant school staff and/or officials from relevant public safety, health and human service, housing, and nonprofit agencies.

Dropout Prevention

A student who has not graduated from high school and has been absent from school for ten (10) consecutive days of unexcused absence shall not be considered permanently removed from school unless the Associate Principal has sent notice to the student, and that student's parent/guardian. The notice shall be sent within five (5) days of the tenth consecutive day of absence and shall offer at least 2 dates and times within the next ten (10) days for an exit interview with the Superintendent or designee, the student, and the student's parent/guardian. The notice shall be in both English and the primary language of the home, if applicable. The notice shall include contact information for scheduling the exit interview and shall indicate the parties shall reach an agreement on the date/time of the interview within

the ten (10) day timeframe. The timeframe may be extended at the request of the parent/guardian and no extension shall exceed 14 days.

The Superintendent or designee may proceed with any interview without a parent/guardian present, provided the Superintendent has documented a good faith effort to include the parent/guardian.

The Superintendent or designee shall convene a team of school staff to participate in the exit interview and shall provide information to the student and, if applicable, the student's parent/guardian on the detrimental effects of early withdrawal from school and the alternative education programs and services available to the student.

EXCLUSIONS AND EXEMPTIONS FROM SCHOOL ATTENDANCE

Denial of Admission

Denial of admission means the withholding of the privilege of enrolling in a school of the District.

The following shall be the grounds for denial of admission to school or for diversion to an appropriate alternative program:

Graduation from the twelfth grade of any school or receipt of any document evidencing completion of the equivalent of a secondary curriculum;

Not being a resident of the District and the District has opted not to participate in the School Choice Law;

Failure to comply with the provisions of the Massachusetts School Entry Immunization Law.

CONSTITUTIONAL RIGHTS

The Lincoln-Sudbury Regional High School shall safeguard the constitutional rights of all members of the school. Students and teachers alike may exercise their rights of free speech and assembly so long as their doing so does not interfere with the school's normal operation. It shall further be the policy of this school that neither teachers nor students have the right to disrupt the normal routines or to treat a class as a captive audience for the purpose of political activity.

Students and teachers will further be guided by the philosophy and school-wide objectives contained *in* the Program of Studies Handbook.

Undated policy from 1986 Policy Manual

SOURCE: Lincoln-Sudbury

Amended 3/11/03

Adopted for LSSC Policy Manual: 12/21/21

STUDENT RIGHTS AND RESPONSIBILITIES

The School Committee has the responsibility to afford students the rights that are theirs by virtue of guarantees offered under the federal and state constitutions and statutes. In connection with rights, there are responsibilities that must be assumed by students.

Among these rights and responsibilities are the following:

1. Civil rights--including the rights to equal educational opportunity and freedom from discrimination; the responsibility not to discriminate against others.
2. The right to attend free public schools; the responsibility to attend school regularly and to observe school rules essential for permitting others to learn at school.
3. The right to due process of law with respect to suspension, expulsion, and decisions the student believes injure their rights.
4. The right to free inquiry and expression; responsibility to observe reasonable rules regarding these rights.
5. The right to privacy, which includes privacy with respect to the student's school records.

It is the School Committee's belief that as part of the educational process students should be made aware of their legal rights, and of the legal authority of the School Committee to make and delegate authority to its staff to make rules regarding the orderly operation of the schools.

Students have the right to know the standards of behavior that are expected of them and the consequences of misbehavior.

The rights and responsibilities of students, including standards of conduct, will be made available to students and their parents/guardians through handbooks distributed annually.

LEGAL REFS.: M.G.L. 71:37H; 71:82 through 71:86

STUDENT INVOLVEMENT IN DECISION-MAKING

As appropriate to the age of students, class or school organizations and school government organizations, such as student councils, may be formed to offer practice in self-government and to serve as channels for the expression of students' ideas and opinions.

The Committee will take into consideration student opinions in establishing policies that directly affect student programs, activities, privileges and other areas of student sensitivity.

Students will be welcomed at Committee meetings and granted privileges of speaking in line with the privileges extended to the general public.

Student Advisory Committee

As required by state law, the Committee will meet at least once every other month while school is in session with its student advisory committee, which is composed of five students elected by the high school student body. The chair of the student advisory committee shall be an ex-officio non-voting member of the School Committee without the right to attend executive sessions unless such right is expressly granted by the School Committee.

DISCIPLINE

The School Committee supports the full and fair implementation of student disciplinary procedures in accordance with due process. Moreover, the Committee supports the school administration in maintaining an environment that is safe, purposeful, and orderly; and in which rules for conduct and behavior are clear and consistently enforced. Each year, the Superintendent/Principal, in consultation with the School Council, shall review the L-S Discipline Code, and make changes and revisions as necessary. The Code will be included in the Program of Studies Handbook, and will be distributed to students and teachers every year.

SOURCE: Lincoln-Sudbury

Amended 11/26/02

Adopted for LSSC Policy Manual: 12/21/21

CROSS REF.: Lincoln-Sudbury Regional High School Discipline Code

STUDENT DISCIPLINE

The School Committee believes that all students deserve every opportunity to achieve academic success in a safe, secure learning environment. Good citizenship in schools is based on respect and consideration for the rights of others. Students will be expected to conduct themselves in a way that the rights and privileges of others are not violated. They will be required to respect constituted authority, to conform to school rules and to those provisions of law that apply to their conduct.

Prohibited actions in the student handbook or other publication will be made available to students and parents/guardians.

Associate Principals and staff shall not use academic punishment of any form as a consequence to inappropriate behaviors/actions by students.

The Associate Principals may, as a disciplinary measure, remove a student from privileges, such as extracurricular activities and attendance at school-sponsored events, based on the student's misconduct. Such a removal is not subject to the remainder of this policy, law, or regulation.

The Superintendent shall provide each Associate Principal with a copy of the regulations promulgated by DESE and shall have each Associate Principal sign a document acknowledging receipt thereof, which shall be placed in their personnel file.

Suspension

In every case of student misconduct for which suspension may be imposed (except for offenses referenced in the note at the end of this policy), a Principal shall consider ways to re-engage the student in learning; and avoid using long-term suspension from school as a consequence until alternatives have been tried. Alternatives may include the use of evidence-based strategies and programs such as mediation, conflict resolution, restorative justice, and positive behavioral interventions and supports.

Notice of Suspension:

For all out-of-school suspensions Associate Principals must provide the student and the parent/guardian oral and written notice, and provide the student an opportunity for a hearing and the parent/guardian an opportunity to participate in such hearing before imposing suspension as a consequence for misconduct. For in-school suspensions, the Associate Principal should offer a meeting which the parents can decline. The Associate Principal shall provide both oral and written notice to student and parent/guardian in English and in the primary language of the home if other than English. The notice shall include the rights enumerated in law and regulation. To conduct a hearing without a parent/guardian present, the Associate Principal must be able to document reasonable efforts to include the parent/guardian.

Emergency Removal

An Associate Principal may remove a student from school temporarily when a student is charged with a disciplinary offense and the continued presence of the student poses a danger to persons or property, or

materially and substantially disrupts the order of the school, and, in the Associate Principal's judgment, there is no alternative available to alleviate the danger or disruption. The Associate Principal shall immediately notify the Superintendent in writing of the removal including a description of the danger presented by the student.

The temporary removal shall not exceed two (2) school days following the day of the emergency removal, during which time the Associate Principal shall: Make immediate and reasonable efforts to orally notify the student and the student's parent/guardian of the emergency removal, the reason for the need for emergency removal, and the other matters required in the notice as referenced in the applicable regulation; Provide written notice to the student and parent/guardian as required above; Provide the student an opportunity for a hearing with the Associate Principal that complies with applicable regulations, and the parent/guardian an opportunity to attend the hearing, before the expiration of the two (2) school days, unless an extension of time for hearing is otherwise agreed to by the Associate Principal, student, and parent/guardian; Render a decision orally on the same day as the hearing, and in writing no later than the following school day, which meets the requirements of applicable law and regulation.

An Associate Principal shall also ensure adequate provisions have been made for the student's safety and transportation prior to removal.

In School Suspension – not more than 10 days consecutively or cumulatively

The Associate Principal may use in-school suspension as an alternative to short-term suspension for disciplinary offenses.

The Associate Principal may impose an in-school suspension for a disciplinary offense under this provision, provided that the Associate Principal follows the process set forth in regulation and the student has the opportunity to make academic progress as required by law and regulation. Although discipline hearing meetings are not required for in-school suspensions, a meeting must be offered to the family.

Associate Principal's Hearing – Short Term Suspension of up to 10 days

The hearing with the Associate Principal shall be to hear and consider information regarding the alleged incident for which the student may be suspended, provide the student an opportunity to dispute the charges and explain the circumstances surrounding the alleged incident, determine if the student committed the disciplinary offense, and if so, the consequences for the infraction.

At a minimum, the Associate Principal shall discuss the disciplinary offense, the basis for the charge, and any other pertinent information.

The student also shall have an opportunity to present information, including mitigating facts, and witnesses that the Associate Principal should consider in determining whether other remedies and consequences may be appropriate as set forth in law and regulation.

The Associate Principal shall provide the parent/guardian, if present, an opportunity to discuss the student's conduct and offer information, including mitigating circumstances, that the Associate Principal should consider in determining consequences for the student.

The Associate Principal shall, based on the available information, including mitigating circumstances, determine whether the student committed the disciplinary offense, and, if so, what remedy or consequence will be imposed.

The Associate Principal shall notify the student and parent/guardian of the determination and the reasons for it, and, if the student is suspended, the type and duration of suspension and the opportunity to make up assignments and such other school work as needed to make academic progress during the period of removal, as required by law and regulation. The determination shall be in writing and may be in the form of an update to the original written notice.

Principal's Hearing – Long Term Suspension of more than 10 days but less than 90 days (consecutive or cumulative)

The hearing with the Associate Principal shall be to hear and consider information regarding the alleged incident for which the student may be suspended, provide the student an opportunity to dispute the charges and explain the circumstances surrounding the alleged incident, determine if the student committed the disciplinary offense, and if so, the consequences for the infraction.

At a minimum, in addition to the rights afforded a student in a short-term suspension hearing, the student shall have the following rights: In advance of the hearing, the opportunity to review the student's record and the documents upon which the Associate Principal may rely in making a determination to suspend the student or not; The right to be represented by counsel or a lay person of the student's choice, at the student's/parent's/guardian's expense; The right to produce witnesses on his or her behalf and to present the student's explanation of the alleged incident, but the student may not be compelled to do so; The right to cross-examine witnesses presented by the school district; The right to request that the hearing be recorded by the Associate Principal, and to receive a copy of the audio recording upon request. If the student or parent/guardian requests an audio recording, the Associate Principal shall inform all participants before the hearing that an audio record will be made and a copy will be provided to the student and parent/guardian upon request.

The Associate Principal shall provide the parent/guardian, if present, an opportunity to discuss the student's conduct and offer information, including mitigating circumstances, that the Associate Principal should consider in determining consequences for the student.

The Associate Principal shall, based on the evidence, determine whether the student committed the disciplinary offense, and, if so, after considering mitigating circumstances and alternatives to suspension as required by law and regulation, what remedy or consequence will be imposed, in place of or in addition to a long-term suspension. The Associate Principal shall send the written determination to the student and parent/guardian by hand-delivery, certified mail, first-class mail, email to an address provided by the parent/guardian for school communications, or any other method of delivery agreed to by the Associate Principal and the parent/guardian.

If the Associate Principal decides to suspend the student, the written determination shall: Identify the disciplinary offense, the date on which the hearing took place, and the participants at the hearing; Set out the key facts and conclusions reached by the Associate Principal; Identify the length and effective date of the suspension, as well as a date of return to school; Include notice of the student's opportunity to receive education services to make academic progress during the period of removal from school as required by law and regulation; Inform the student of the right to appeal the Associate Principal's decision to the Superintendent or designee, but only if the Associate Principal has imposed a long-term suspension. Notice of the right of appeal shall be in English and the primary language of the home if other than English, or other means of communication where appropriate, and shall include the following information: The process for appealing the decision, including that the student or parent/guardian must file a written notice of appeal with the Superintendent within five (5) calendar days of the effective date of the long-term suspension; provided that within the five (5) calendar days, the student or parent/guardian may request and receive from the Superintendent an extension of time for filing the written notice for up to seven (7) additional calendar days; and that the long-term suspension will remain in effect unless and until the Superintendent decides to reverse the Associate Principal's determination on appeal.

Superintendent's Hearing

A student who is placed on long-term suspension following a hearing with the Associate Principal shall have the right to appeal the Associate Principal's decision to the Superintendent.

The student or parent/guardian shall file a notice of appeal with the Superintendent within the time period noted above (see Associate Principal's hearing – Suspension of more than 10 days). If the appeal is not timely filed, the Superintendent may deny the appeal, or may allow the appeal in his or her discretion, for good cause.

The Superintendent shall hold the hearing within three (3) school days of the student's request, unless the student or parent/guardian requests an extension of up to seven (7) additional calendar days, in which case the Superintendent shall grant the extension.

The Superintendent shall make a good faith effort to include the parent/guardian in the hearing. The Superintendent shall be presumed to have made a good faith effort if he or she has made efforts to find a day and time for the hearing that would allow the parent/guardian and Superintendent to participate. The Superintendent shall send written notice to the parent/guardian of the date, time, and location of the hearing.

The Superintendent shall conduct a hearing to determine whether the student committed the disciplinary offense of which the student is accused, and if so, what the consequence shall be. The Superintendent shall arrange for an audio recording of the hearing, a copy of which shall be provided to the student or parent/guardian upon request. The Superintendent shall inform all participants before the hearing that an

audio record will be made of the hearing and a copy will be provided to the student and parent/guardian upon request. The student shall have all the rights afforded the student at the Associate Principal's hearing for long-term suspension.

The Superintendent shall issue a written decision within five (5) calendar days of the hearing which meets the requirements of law and regulation. If the Superintendent determines that the student committed the disciplinary offense, the Superintendent may impose the same or a lesser consequence than the Associate Principal, but shall not impose a suspension greater than that imposed by the Associate Principal's decision. The decision of the Superintendent shall be the final decision of the school district with regard to the suspension.

Long Term Exclusion (formerly known as Expulsion)

Long term exclusion is defined as the removal of a student from school for more than ninety (90) school days, indefinitely, or permanently as allowed by law for possession of a dangerous weapon; possession of a controlled substance; assault on a member of the educational staff; or a felony charge or felony delinquency complaint or conviction, or adjudication or admission of guilt with respect to such felony, if an Associate Principal determines that the student's continued presence in school would have a substantial detrimental effect on the general welfare of the school.

Any student excluded for 90 days from school for such an offense shall be afforded an opportunity to receive educational services and make academic progress.

Academic Progress

Any student who is suspended or excluded shall have the opportunity to earn credits, make up assignments, tests, papers, and other school work as needed to make academic progress during the period of his or her removal from the classroom or school. The Principal shall inform the student and parent/guardian of this opportunity in writing, in English and in the primary language of the home, when such suspension or expulsion is imposed.

Any student who is excluded or suspended from school for more than ten (10) consecutive days, whether in school or out of school, shall have an opportunity to receive education services and make academic progress toward meeting state and local requirements, through the school-wide education service plan.

The Associate Principal shall develop a school-wide education service plan describing the education services that the school district will make available to students who are expelled or suspended from school for more than ten (10) consecutive days. The plan shall include the process for notifying such students and their parents/guardians of the services and arranging such services. Education services shall be based on, and be provided in a manner consistent with, the academic standards and curriculum frameworks established for all students under the law.

The Associate Principal shall notify the parent/guardian and student of the opportunity to receive education services at the time the student is expelled or placed on long-term suspension. Notice shall be provided

in English and in the primary language spoken in the student's home if other than English, or other means of communication where appropriate. The notice shall include a list of the specific education

services that are available to the student and contact information for a school district staff member who can provide more detailed information.

For each student excluded or suspended from school for more than ten (10) consecutive days, whether in-school or out-of-school, the school district shall document the student's enrollment in education services. For data reporting purposes, the school shall track and report attendance, academic progress, and such other data as directed by the Department of Elementary and Secondary Education.

Reporting

The school district shall collect and annually report data to the DESE regarding in-school suspensions, short- and long-term suspensions, expulsions, emergency removals, access to education services, and such other information as may be required by the DESE.

The Associate Principal of each school shall periodically review discipline data by selected student populations, including but not limited to race and ethnicity, gender, socioeconomic status, English language learner status, and student with a disability status in accordance with law and regulation.

Adopted for LSSC Policy Manual: 12/21/21

LEGAL REF: M.G.L. [71:37H](#); [71:37H ½](#); 71:37H ^¾; 76:17; 603 CMR 53.00

NOTE: The DESE regulations on student discipline and this policy, consistent with law, set forth the minimum procedural requirements applicable to the suspension of a student for a disciplinary offense other than: possession of a dangerous weapon; possession of a controlled substance; assault on a member of the educational staff; or a felony charge or felony delinquency complaint or conviction, or adjudication or admission of guilt with respect to such felony, if a Superintendent/Principal determines that the student's continued presence in the school would have a substantial detrimental effect on the general welfare of the school, as provided in M.G.L. c. 71, S. 37H or 37H½. The Superintendent/Principal, pursuant to the previously referenced statute may remove a student who has committed any of the disciplinary offenses above referenced from school for more than 90 days in a school year. Except that the removal from school for such offenses is subject to the provision of continuing educational services needed to make academic progress and, the requirement that all school districts regardless of the type of offense shall report school discipline data and analysis to DESE. Also, the prohibited actions above referenced are subject to the provision that allows the Commissioner to investigate each school that has a significant number of students suspended and expelled for more than 10 cumulative days in a school year and to make recommendations thereon.

STUDENT DRESS CODE

The responsibility for the dress and appearance of the students will rest with individual students and parents/guardians.

They have the right to determine how the student will dress providing that attire is not destructive to school property, complies with requirements for health and safety, and does not cause disorder or disruption. The administration is authorized to take action in instances where individual dress does not meet the stated requirements.

This does not mean that student, faculty, or parent groups may not recommend appropriate dress for school or special occasions. It means that students will not be prevented from attending school or a school function, or otherwise be discriminated against, so long as their dress and appearance meet the requirements set forth above.

SOURCE: MASC

Adopted for LSSC Policy Manual: 12/21/21

STUDENT CONDUCT ON SCHOOL BUSES

The School Committee and its staff share with students and parents/guardians the responsibility for student safety during transportation to and from school. The authority for enforcing School Committee requirements of student conduct on buses will rest with the Superintendent/Principal.

To ensure the safety of all students who ride in buses, it may occasionally be necessary to revoke the privilege of transportation from a student who abuses this privilege. Parents/guardians of children whose behavior and misconduct on school buses endangers the health, safety, and welfare of other riders will be notified that their children face the loss of transportation privileges in accordance with regulations approved by the School Committee.

SOURCE: MASC

Adopted for LSSC Policy Manual: 12/21/21

NOTE: The coding of this statement indicates that the identical policy is filed in the E (Support Services) section.

STUDENT PUBLICATIONS

Within the school setting, students enjoy the constitutional right of freedom of expression, including the right to express their views in student publications, provided such expression does not cause, or threaten to cause by reasonable forecast by school officials, any disruption or disorder in the school. Additionally, such constitutional right of freedom of expression does not include expression which is obscene, defamatory, or advocates violence or illegality where such advocacy is imminently likely to incite the commission of such acts to the detriment of school security, or which can reasonably be forecast to cause substantial disruption or material interference with school activities.

The School Committee will at least annually review their support of student publications, and encourage student publications not only because they offer an educational activity through which students gain experience in reporting, writing, editing, and understanding responsible journalism, but also because they provide an opportunity for students to express their views subject to the limitations as contained in this policy.

Student publications will be encouraged to comply with the rules for responsible journalism. Students shall affix their names to all articles or editorials written by or contributed to by them. The Superintendent will establish guidelines that are in keeping with this policy and provide for review of student publications prior to their distribution, to address matters that are not protected forms of expression.

Each student publication shall contain the following: "Pursuant to state law, no expression made by students in the exercise of such rights shall be deemed to be an expression of school policy and no school officials shall be held responsible in any civil or criminal action for any expression made or published by the students."

Distribution of Literature

The time, place and manner of distribution of literature will be reasonably regulated by the Superintendent/Principal.

LEGAL REF.: M.G.L. 71:82

SOURCE: MASC April 2007
Adopted for LSSC Policy Manual: 12/21/21

PROHIBITION OF HAZING

In accordance with Massachusetts General Laws, the School Committee hereby deems that no student, employee or school organization under the control of the School Committee shall engage in the activity of hazing a student while on or off school property, or at a school sponsored event regardless of the location. No organization that uses the facilities or grounds under the control of the School Committee shall engage in the activity of hazing any person while on school property.

Any student who observes what appears to them to be the activity of hazing another student or person should report such information to the Principal including the time, date, location, names of identifiable participants and the types of behavior exhibited. Students and employees of the District are obligated by law to report incidents of hazing to the police department.

Any student who is present at a hazing has the obligation to report such an incident. Failure to do so may result in disciplinary action by the school against that student and could involve suspension from school for up to three days.

Any student who participates in the hazing of another student or other person may, upon the approval of the Principal, be suspended from school for up to ten (10) school days.

Any student determined by the Associate Principal to be the organizer of a hazing activity may be recommended for expulsion from school but will receive no less disciplinary action than that of a participant.

In all cases relating to hazing, students will receive procedural due process.

SOURCE: MASC February 2019
Adopted for LSSC Policy Manual: 12/21/21

LEGAL REF.: M.G.L. 269:17, 18, 19

HAZING

CH. 269, S.17. HAZING; ORGANIZING OR PARTICIPATING; HAZING DEFINED

Whoever is a principal organizer or participant in the crime of hazing, as defined herein, shall be punished by a fine of not more than three thousand dollars or by imprisonment in a house of correction for not more than one year, or both such fine and imprisonment.

The term "hazing" as used in this section and in sections eighteen and nineteen, shall mean any conduct or method of initiation into any student organization, whether on public or private property, which willfully or recklessly endangers the physical or mental health of any student or other person. Such conduct shall include whipping, beating, branding, forced calisthenics, exposure to the weather, forced consumption of any food, liquor, beverage, drug or other substance, or any other brutal treatment or forced physical activity which is likely to adversely affect the physical health or safety of any such student or other person, or which subjects such student or other person to extreme mental stress, including extended deprivation of sleep or rest or extended isolation.

Notwithstanding any other provisions of this section to the contrary, consent shall not be available as a defense to any prosecution under this action.

CH. 269, S.18. FAILURE TO REPORT HAZING

Whoever knows that another person is the victim of hazing as defined in section seventeen and is at the scene of such crime shall, to the extent that such person can do so without danger or peril to himself or others, report such crime to an appropriate law enforcement official as soon as reasonably practicable. Whoever fails to report such crime shall be punished by a fine of not more than one thousand dollars.

CH. 269, S.19. COPY OF SECTIONS 17 TO 19; ISSUANCE TO STUDENTS AND STUDENT GROUPS, TEAMS AND ORGANIZATIONS; REPORT

Each institution of secondary education and each public and private institution of post-secondary education shall issue to every student group, student team or student organization which is part of such institution or is recognized by the institution or permitted by the institution to use its name or facilities or is known by the institution to exist as an unaffiliated student group, student team or student organization, a copy of this section and sections seventeen and eighteen; provided, however, that an institution's compliance with this section's requirements that an institution issue copies of this section and sections seventeen and eighteen to unaffiliated student groups, teams or organizations shall not constitute evidence of the institution's recognition or endorsement of said unaffiliated student groups, teams or organizations.

Each such group, team or organization shall distribute a copy of this section and sections seventeen and eighteen to each of its members, plebes, pledges or applicants for membership. It shall be the duty of each such group, team or organization, acting through its designated officer, to deliver annually, to the institution an attested acknowledgement stating that such group, team or organization has received a

copy of this section and said sections seventeen and eighteen, that each of its members, plebes, pledges, or applicants has received a copy of sections seventeen and eighteen, and that such group, team or organization understands and agrees to comply with the provisions of this section and sections seventeen and eighteen.

Each institution of secondary education and each public or private institution of post-secondary education shall, at least annually, before or at the start of enrollment, deliver to each person who enrolls as a full time student in such institution a copy of this section and sections seventeen and eighteen.

Each institution of secondary education and each public or private institution of post-secondary education shall file, at least annually, a report with the board of higher education and in the case of secondary institutions, the board of education, certifying that such institution has complied with its responsibility to inform student groups, teams or organizations and to notify each full time student enrolled by it of the provisions of this section and sections seventeen and eighteen and also certifying that said institution has adopted a disciplinary policy with regard to the organizers and participants of hazing, and that such policy has been set forth with appropriate emphasis in the student handbook or similar means of communicating the institution's policies to its students. The board of higher education and, in the case of secondary institutions, the board of education shall promulgate regulations governing the content and frequency of such reports, and shall forthwith report to the attorney general any such institution which fails to make such report.

SOURCE: MASC July 2018

Adopted for LSSC Policy Manual: 12/21/21

POLICIES AND PROCEDURES FOR REPORTING AND RESPONDING TO BULLYING AND RETALIATION

- A. Reporting bullying or retaliation. Reports of bullying or retaliation may be made by staff, students, parents or guardians, or others, and may be oral or written. Oral reports made by or to a staff member shall be recorded in writing. Staff members are required to report any instance of bullying or retaliation they become aware of or witnesses to an administrator. Reports may be made anonymously. There are a variety of reporting resources available to the school community including:
- The online Safety Reporting Form
 - An email address for the Violence Prevention Coordinator
 - A mailbox for the Violence Prevention Coordinator

A copy of the Safety Reporting Form will be included in the beginning of the year packets for students and parents or guardians, made available in the Main Office, the House Offices, and the Health Suite. It will also be posted on the school website. Reports may also be made directly to the Associate Principals/Director of the ACE Program, either in person or by telephone.

At the beginning of each school year, the Superintendent/Principal's office will provide the school community, including administrators, staff, students, and parents or guardians, with written notice of its policies for reporting acts of bullying and retaliation. A description of the reporting procedures and resources will be incorporated in student and staff handbooks, on the school or district website, and in information about the Plan that is made available to parents or guardians.

Reporting by Staff: When staff members witness or become aware of conduct that may be bullying or retaliation, they will report it immediately to an administrator.

Reporting by Students, Parents or Guardians, and Others: We expect students, parents, guardians, and others who witness or become aware of bullying or retaliation to report it to a staff member. Reports may be made anonymously, but no disciplinary action will be taken against an alleged aggressor solely on the basis of an anonymous report. Students, parents or guardians, and others may request assistance from a staff member to complete a written report

- B. Responding to a report of bullying or retaliation. The Associate Principals and the Director of the ACE Program will be responsible for investigating allegations of bullying or retaliation. Before fully investigating the allegations of bullying or retaliation, they will take steps to restore a sense of safety to the alleged target, or any witness or informant. Additional steps to promote safety during and after the investigation, will be taken as necessary.
- C. Obligations to Notify Others
1. Notice to parents or guardians. Upon determining that bullying or retaliation has occurred,

- the Associate Principals or the Director of the ACE Program will promptly call the parents or guardians of both the targeted person and the aggressor about the incident, and of the procedures for responding to it, as laid out by the L-S Discipline code and this Plan. There may be circumstances in which the Associate Principals or the Director of the ACE Program contacts parents or guardians prior to any investigation. Notice will be consistent with state regulations at 603 CMR 49.00.
2. Notice to Another School or District. If the reported incident involves students from more than one school district, charter school, non-public school, approved private special education day or residential school, or collaborative school, the Associate Principals or the Director of the ACE Program first informed of the incident will promptly notify by telephone the principal or designee of the other school(s) of the incident so that each school may take appropriate action. All communications will be in accordance with state and federal privacy laws and regulations, and 603 CMR 49.00.
 3. Notice to Law Enforcement. At any point after receiving a report of bullying or retaliation, including after an investigation, if the Administrative Team has a reasonable basis to believe that criminal charges may be pursued against the aggressor, the Housemaster or the Director of the ACE Program will notify the local law enforcement agency. Notice will be consistent with the requirements of 603 CMR 49.00 and the MOU. Also, if an incident occurs on school grounds and involves a former student under the age of 21 who is no longer enrolled in school, the Housemaster or the Director of ACE Program shall contact the local law enforcement agency if he or she has a reasonable basis to believe that criminal charges may be pursued against the aggressor.
- D. Investigation. The Associate Principals or the Director of the ACE Program will investigate promptly all reports of bullying or retaliation and, in doing so, will consider all available information known, including the nature of the allegation(s) and the ages of the students involved. During the investigation the alleged aggressor, targeted person, and witnesses will be reminded that retaliation is strictly prohibited and will result in disciplinary action, in accordance with the L-S Discipline Code. To the extent practicable and given his/her obligation to investigate and address the matter, all staff members will maintain confidentiality during the investigative process. The Associate Principals or the Director of the ACE Program will maintain a written record of the investigation. Procedures for investigating reports of bullying and retaliation will be consistent with school or district policies and procedures for investigations. If necessary, the principal or designee will consult with legal counsel about the investigation.
- E. Determinations. The Associate Principals or the Director of the ACE Program will make a determination based upon all of the facts and circumstances. If, after investigation, bullying or retaliation is substantiated, the principal or designee will take steps reasonably calculated to prevent recurrence and to ensure that the targeted person is not restricted in participating in school or in benefiting from school activities. Depending upon the circumstances, the Associate Principal or designee may choose to consult with the students' teacher(s) and/or school counselor, and the target's or aggressor's parents or guardians, to identify any underlying social or emotional issue(s) that may have contributed to the bullying behavior and to assess the level of need for additional social skills development.

The Associate Principal or the Director of the ACE Program will promptly notify the parents or guardians of the targeted person and the aggressor about the results of the investigation and, if bullying or retaliation is found, what action is being taken to prevent further acts of bullying or retaliation. All notice to parents must comply with applicable state and federal privacy laws and regulations. Because of the legal requirements regarding the confidentiality of student records, the Housemaster or the Director of the ACE Program cannot report specific information to the targeted person's parent or guardian about the disciplinary action taken unless it involves a "stay away" order or other directive that the target must be aware of in order to report violations.

Chapter 86 of the Acts of 2014 amended Section 37O of chapter 71 of the General Laws to include (g) (v): The Plan shall inform parents or guardians of the target about the Department's problem resolution system and the process for seeking assistance or filing a claim through the problem resolution system. This information will be made available in both hard copy and electronic formats, regardless of the outcome of the bullying determination:

Any parent/guardian wishing to file a claim/concern or seeking assistance outside of the district may do so with the Department of Elementary and Secondary Education Program Resolution System (PRS). That information can be found at: <http://www.doe.mass.edu/pqa>, emails can be sent to compliance@doe.mass.edu or individuals can call 781-338-3700.

- F. Responses to Bullying Consequences for bullying behavior will be assigned in accordance to the appropriate provisions of the L-S Discipline Code. Reports of bullying will always be addressed with a meeting of the student and Associate Principal and contact with the parent/guardian. Disciplinary actions will range from a warning to suspension to exclusion from school depending upon the severity of the offense and may include police involvement as appropriate. Aggressors may also be mandated to participate in counseling in an educational anti-bullying group. Disciplinary actions will be progressive in nature. Aggressors who retaliate against targets, reporters, or witnesses will face suspension, and police involvement as appropriate. Students who knowingly falsely accuse others of bullying or retaliation will be subject to the same progressive disciplinary actions as others who engage in bullying behavior. House personnel and/or the violence prevention coordinator will create safety plans for students who have been targets of bullying or retaliation. Social skills programs to prevent bullying are offered through collaboration between Special Education and the Counseling Department. Associate Principals/the ACE Program Director, the counseling staff, and the Violence Prevention Coordinator offer education and/or intervention services for students exhibiting bullying behaviors.

SOURCE: Section V of the Lincoln-Sudbury Bullying Prevention Plan – revised 5/11/15
Adopted for LSSC Policy Manual: 12/21/21

BULLYING PREVENTION

The School Committee is committed to providing a safe, positive and productive educational environment where students can achieve the highest academic standards. No student shall be subjected to harassment, intimidation, bullying, or cyber-bullying.

“Bullying” is the repeated use by one or more students or school staff members of a written, verbal, or electronic expression, or a physical act or gesture, or any combination thereof, directed at a target that:

- causes physical or emotional harm to the target or damage to the target’s property;
- places the target in reasonable fear of harm to themselves, or of damage to their property;
- creates a hostile environment at school for the target;
- infringes on the rights of the target at school; or
- materially and substantially disrupts the education process or the orderly operation of a school.

“Cyber-bullying” means bullying through the use of technology or any electronic communication, which shall include, but shall not be limited to, any transfer of signs, signals, writing, images, sounds, data or intelligence of any nature transmitted in whole or in part by a:

- wire
- radio
- electromagnetic
- photo-electronic or photo-optical system, including, but not limited to, electronic mail, internet communications, instant messages or facsimile communications.

Cyber-bullying shall also include the creation of a web page or blog in which the creator assumes the identity of another person or knowingly impersonates another person as author of posted content or messages, if the creation or impersonation creates any of the conditions enumerated in the definition of bullying.

Cyber-bullying shall also include the distribution by electronic means of a communication to more than one person or the posting of material on an electronic medium that may be accessed by one or more persons, if the distribution or posting creates any of the conditions enumerated in the definition of bullying.

Bullying and cyber-bullying may occur in and out of school, during and after school hours, at home and in locations outside of the home. When bullying and cyber-bullying are alleged, the full cooperation and assistance of parents/guardians and families are expected.

For the purpose of this policy, whenever the term bullying is used it is to denote either bullying, or

cyber-bullying.

Bullying is prohibited:

- On school grounds;
- On property immediately adjacent to school grounds;
- At school-sponsored or school-related activities;
- At functions or programs whether on or off school grounds
- At school bus stops;
- On school buses or other vehicles owned, leased or used by the school district; or,
- Through the use of technology or an electronic device owned, leased or used by the school district;

Bullying and cyber-bullying are prohibited at a location, activity, function or program that is not school-related or through the use of technology or an electronic device that is not owned, leased or used by the school district if the act or acts in question:

- create a hostile environment at school for the target;
- infringe on the rights of the target at school; and/or
- materially and substantially disrupt the education process or the orderly operation of a school.

Prevention and Intervention Plan

The Superintendent and/or their designee shall oversee the development of a prevention and intervention plan, in consultation with all district stakeholders, which may include teachers, school staff, professional support personnel, school volunteers, administrators, community representatives, local law enforcement agencies, students, parents and guardians, consistent with the requirements of this policy, as well as state and federal laws. The bullying prevention and intervention plan shall be reviewed and updated at least biennially.

The Superintendent is responsible for the implementation and oversight of the bullying prevention and implementation plan within his or her school.

Reporting

Students, who believe that they are a target of bullying, observe an act of bullying, or who have reasonable grounds to believe that these behaviors are taking place, are obligated to report incidents to a member of the school staff. The target shall, however, not be subject to discipline for failing to report bullying. There shall be a means for anonymous reporting by students of incidents of bullying. No formal disciplinary action shall be taken solely on the basis of an anonymous report.

Any student who knowingly makes a false accusation of bullying shall be subject to disciplinary action.

Parents or guardians, or members of the community, are encouraged to report an incident of bullying as soon as possible.

A member of a school staff shall immediately report any instance of bullying the staff member has witnessed or become aware of to the school principal or their designee.

Investigation Procedures

The Associate Principal or their designee, upon receipt of a viable report, shall promptly contact the parents or guardians of a student who has been the alleged target or alleged perpetrator of bullying. The actions being taken to prevent further acts of bullying shall be discussed.

The Associate Principal or a designee shall promptly investigate the report of bullying, using a Bullying/Cyber-bullying Report Form which may include interviewing the alleged target, alleged perpetrator, staff members, students and/or witnesses.

Support staff shall assess an alleged target's needs for protection and create and implement a safety plan that shall restore a sense of safety for that student.

Confidentiality shall be used to protect a person who reports bullying, provides information during an investigation of bullying, or is witness to or has reliable information about an act of bullying.

If the Associate Principal or a designee determines that bullying has occurred they shall take appropriate disciplinary action and if it is believed that criminal charges may be pursued against the perpetrator, the principal shall consult with the school's resource officer and the Superintendent to determine if criminal charges are warranted. If it is determined that criminal charges are warranted, the local law enforcement agency shall be notified.

The investigation shall be completed within fourteen school days from the date of the report. The parents or guardians shall be contacted upon completion of the investigation and informed of the results, including whether the allegations were found to be factual, whether a violation of this policy was found, and whether disciplinary action has or shall be taken. At a minimum the Associate Principal or their designee shall contact the parents or guardians as to the status of the investigation on a weekly basis.

Disciplinary actions for students who have committed an act of bullying or retaliation shall be in accordance with district disciplinary policies.

Each school shall document any incident of bullying that is reported per this policy and a file shall be maintained by the Principal or designee. A monthly report shall be provided to the Superintendent.

Confidentiality shall be maintained to the extent consistent with the school's obligations under law.

Retaliation

Retaliation against a person who reports bullying, provides information during an investigation of bullying, or witnesses or has reliable information about bullying, shall be prohibited.

Target Assistance

The school district shall provide counseling or referral to appropriate services, including guidance, academic intervention, and protection to students, both targets and perpetrators, affected by bullying, as necessary.

Training and Assessment

Annual training shall be provided for school employees and volunteers who have significant contact with students in preventing, identifying, responding to, and reporting incidents of bullying.

Age-appropriate, evidence-based instruction on bullying prevention shall be incorporated into the curriculum for all K to 12 students.

Publication and Notice

Annual written notice of the relevant sections of the bullying prevention and intervention plan shall be provided to students and their parents or guardians, in age-appropriate terms.

Annual written notice of the bullying prevention and intervention plan shall be provided to all school staff. The faculty and staff at each school shall be trained annually on the bullying prevention and intervention plan applicable to the school.

Relevant sections of the bullying prevention and intervention plan relating to the duties of faculty and staff shall be included in the school employee handbook.

The bullying prevention and intervention plan shall be posted on the school district website.

ALCOHOL, TOBACCO, AND DRUG USE BY STUDENTS PROHIBITED

A student shall not, regardless of the quantity, use or consume, possess, buy or sell, or give away any beverage containing alcohol; any tobacco product, including vapor/E-cigarettes; marijuana; steroids; or any controlled substance. The School Committee prohibits the use or consumption by students of alcohol, tobacco products, or drugs on school property, at any school function, or at any school sponsored event.

Additionally, any student who is under the influence of drugs or alcoholic beverages prior to, or during, attendance at or participation in a school-sponsored activity, will be barred from that activity and may be subject to disciplinary action.

Verbal Screening

- The school district shall utilize, in accordance with law, a verbal screening tool approved by the Department of Elementary and Secondary Education to screen students for substance abuse disorders.
- Parents/guardians shall be notified prior to the opening of school each year. Parents/guardians shall have the right to opt out of the screening by written notice prior to or during the screening.
- All statements made by a student during a screening are confidential and shall not be disclosed except in the event of immediate medical emergency or in accordance with law. De-identified results shall be reported to the Department of Public Health within 90 days of the completion of the screening process.

This policy shall be posted on the district's website and notice shall be provided to all students and parents/guardians of this policy in accordance with state law. Additionally, the district shall file a copy of this policy with DESE in accordance with law in a manner requested by DESE.

TEEN DATING VIOLENCE AND SEXUAL ASSAULT POLICY

Teen Dating violence is a widespread problem in US schools, and LSRHS is not immune to it.

- Research shows that about one in three U.S. teens ages 14 to 20 has been a victim of dating violence and about the same number say they have committed relationship violence themselves.
- Nationwide, 12% of 9th-12th grade girls have been physically forced to have sexual intercourse when they did not want to.

Teen dating violence has serious consequences for victims and their schools, including decreased school attendance and academic performance. Further, teenage victims of dating violence are more likely than their non-abused peers to smoke, use drugs, present with eating disorders, engage in risky sexual behaviors, and attempt or consider suicide.

(<http://www2.ed.gov/about/offices/list/oese/oshs/teendatingviolence-factsheet.html>)

LSRHS is committed to preventing teen dating violence and sexual violence among our students. LSRHS strives to provide students with information and skills to avoid, prevent, report, and/or respond to dating and sexual violence, through continuous implementation and refinement of its formal and informal curriculum.

LSRHS will respond to reports of sexual harassment, sexual assault, or sexual violence, including such violence in the dating context. When such a report is made to the school, an LS administrator will report the allegation to local law enforcement, whether it is alleged to have occurred on or off campus, as appropriate. For alleged victims under 18, LSRHS will also report the allegation to the Department of Children and Families. In addition, LSRHS Title IX Coordinators will follow the investigation process and keep families informed, in keeping with their Title IX rights, no matter where the alleged incident occurred.

For all allegations of *on-campus* dating or sexual violence, at least two Lincoln-Sudbury administrators will investigate and will hold anyone who perpetrates dating abuse or violence accountable and responsible. Prohibited behaviors include but are not limited to: physical assault, sexual battery, rape, physical or electronic stalking, and any form of sexual violence or any threat thereof.

In accordance with Title IX, LSRHS will offer appropriate relief strategies and supports to victims of alleged dating and/or sexual violence; such relief will take place while school investigation is in process, whether or not the police are also investigating. An alleged victim will be informed of the progress of the school investigation, its findings, and, if the sexual harassment, assault, or violence is determined to have occurred, of actions taken to end the sexual harassment/assault/violence, eliminate the hostile environment for the victim, and prevent its recurrence. The range of disciplinary interventions for anyone found to have committed sexual harassment, sexual assault, or sexual violence, including in the dating context, *on-campus* includes: change of class schedule, proscribing certain hallway routes, restrictions on extra-curricular activities and attendance at school-sponsored events, required non-contact agreement, suspension, and short- or long-term exclusion. If a court-ordered Harassment Prevention Order (HPO) or Restraining Order (RO) is in place, LSRHS may be required to separate the

Lincoln-Sudbury Regional School District

alleged perpetrator from the school, while providing educational support outside the building. The range of educational interventions may include: psycho-educational sessions with clinical counselor, dating violence educational sessions with MVP (Mentors In Violence Prevention) trained staff, referral to outside sources for counseling, advocacy, and/or support. LSRHS will provide and facilitate referrals to outside services and support for both alleged victims and alleged perpetrators. LSRHS has an internal protocol to guide implementation of this policy.

Adopted for LSSC Policy Manual: 12/21/21

PREGNANT STUDENTS

The School Committee wishes to preserve educational opportunities for those students who may become pregnant and/or take on parenting responsibilities.

Pregnant students are permitted to remain in regular classes and participate in extracurricular activities with non-pregnant students throughout their pregnancy, and after giving birth are permitted to return to the same academic and extracurricular program as before the leave.

The school district does not require a pregnant student to obtain the certification of a physician that the student is physically and emotionally able to continue in school.

Every effort will be made to see that the educational program of the student is disrupted as little as possible; that health counseling services, as well as instruction, are offered; that return to school after leave is encouraged; and that every opportunity to complete high school is provided.

LEGAL REFS.: M.G.L. 71:84
 Title IX: 20 U.S.C. § 1681
 34 CFR § 106.40(b)

SEARCHES AND INTERROGATIONS

Searches by Staff

The right of inspection of students' school lockers is inherent in the authority granted school committees and administrators. This authority may be exercised as needed in the interest of safeguarding students, their own property and school property.

Nevertheless, exercise of that authority by school officials places unusual demands upon their judgment so as to protect each child's constitutional rights to personal privacy and protection from coercion and to act in the best interest of all students and the schools.

Searches by school officials of students' automobiles or the student will be conducted in a way that protects the students' rights consistent with the responsibility of the school district to provide an atmosphere conducive to the educational process.

Interrogations by Police

The schools have legal custody of students during the school day and during hours of approved extracurricular activities. It is the responsibility of the school administration to make an effort to protect each student's rights with respect to interrogations by law enforcement officials. Therefore:

1. When law enforcement officials find it necessary to question students during the school day or periods of extracurricular activities, an Associate Principal or their designee will be present when possible. An effort will be made to contact the student's parent or guardian so that the responsible individual may be notified of the situation.
2. If custody and/or arrest are involved, the Associate Principal will request that all procedural safeguards, as prescribed by law, be observed by the law enforcement officials.

Adopted for LSSC Policy Manual: 12/21/21

STUDENT COMPLAINTS AND GRIEVANCES

The School Committee recognizes that there may be conditions in the school district that are in need of improvement and that students should have some means by which their concerns may be effectively expressed, considered, and dealt with fairly. Such means, if well-conceived and understood in advance, can do much to maintain harmonious relationships among the schools and the students and community. Every attempt will be made to seek a satisfactory solution to any concerns in a friendly and informal manner.

Students and their parents and/or guardians who believe that a student has received unfair treatment may bring forward their grievance through the appropriate channels. Appeals of disciplinary cases will be required to follow the district's policy on student discipline. Any applicable provisions of the Massachusetts General Laws or federal law will be followed by school officials in conducting hearings.

CROSS REF: JIC Student Discipline

CO-CURRICULAR AND EXTRACURRICULAR ACTIVITIES

The primary purpose of the Interscholastic Athletic and Extracurricular Activities program at Lincoln-Sudbury Regional High School is to promote the physical, mental, social and emotional well-being of the participants. Athletics and activities are an integral and fundamental part of education. All students, regardless of skill level and individual differences, are encouraged to participate in extracurricular activities.

All athletic participants must follow athletic department procedures outlined in the Program of Studies Handbook.

The School Committee believes that student activities are a vital part of the total educational program and should be used as a means for developing wholesome attitudes and good human relations and knowledge and skills. Therefore, the schools will provide a broad and balanced program of activities geared to the various ages, interests, and needs of students.

The following will serve as guides in the organization of student activities:

1. The schools will observe a complementary relationship to the home and community, planning activities with due regard for the widespread and rich facilities already available to students.
2. The assistance of parents/guardians in planning activity programs will be encouraged.
3. The goal for each student will be a balanced program of appropriate academic studies and activities to be determined by the school, the parents/guardians, and the student. This should be a shared responsibility.
4. Guidance will be offered to encourage participation of all students in appropriate activities and to prevent over-emphasis on extracurricular activities at the cost of academic performance.
5. All activities will be supervised; all clubs and groups will have a faculty advisor.

STUDENT ORGANIZATIONS

Student Organizations

Student organizations in the District shall be encouraged when they meet the criteria of contributing to student self-esteem and performance and should operate within the framework of state statutes, School Committee policies, and administrative procedures.

General guidelines for the establishment and operation of student organizations should be established. Among other provisions, such guidelines shall require the approval of the Superintendent prior to the formation of any club or organization in the school and the assignment of at least one faculty or designated adult advisor to each approved student organization. Within such guidelines will be provisions for a periodic review of all student organizations.

The formation of any student organization that may engage in activities of a controversial nature shall require approval by the Associate Principals and Superintendent.

All student organizations shall be required to open membership to all interested and/or eligible students. Disruptive groups, secret societies, and/or gangs shall not receive recognition in any manner under this policy.

All forms of hazing in initiations shall be prohibited in a student organization. No initiation shall be held for a student organization which will bring criticism to the school district or be degrading to the student.

The faculty or designated adult advisor must attend every meeting of the student organization whether conducted on school premises or at another location.

Student Organizations - High Schools

In addition to the above requirements, all clubs or organizations at the high school level will relate to the subject matter covered by the curriculum. The Associate Principal is responsible for determining that the purpose of a student organization is related to the curriculum. The Associate Principal is authorized to deny requests by unauthorized student organizations desiring to meet or form in a particular school, the Associate Principal shall inform the group of the reasons for the denial. The students and/or group may submit a written request to the appropriate District administrator for review of the Associate Principal's decision.

CROSS REF: JICF, Gang Activities/Secret Societies

STUDENT FUND-RAISING ACTIVITIES

While the School Committee recognizes that fundraising activities have become a part of the school environment at all levels, the Committee wishes to ensure that students are not exploited by the process.

The Committee supports student involvement in the sale of tickets to scheduled athletic events, school dramatic and musical performances, and other school events where sales are required. Also, student publications which require the sale of advertising to sustain themselves and serve the student body and/or the community may involve students in such sales.

Charitable fundraising activities, especially those that are part of a community service event or program are encouraged provided such proposals are submitted to and approved by both the building Principal and the Superintendent.

Other fundraising activities that wish to involve students in the fundraising process shall be submitted to the Superintendent for approval.

For safety reasons and because the School Committee recognizes that community members receive requests for support from many worthy causes, activities such as canning and door-to-door sales are strongly discouraged.

No money collections of any kind may be held in the schools without the specific consent of the Superintendent.

STUDENT ACTIVITY ACCOUNTS

Student funds may be raised to finance the activities of authorized student organizations. Student activity funds are considered a part of the total fiscal operation of the District and are subject to policies established by the School Committee and the Office of the Superintendent. The funds shall be only for the benefit of students and managed in accordance with sound business practices, which include accepted budgetary, accounting, and internal control practices. The Superintendent/Principal shall ensure that, annually student organizations receive a copy of this policy as well as a copy of established procedures for control of receipts and expenditures that meet or exceed DESE guidelines.

In compliance with Massachusetts General Law, the School Committee:

1. Authorizes the Principals to accept money for recognized student activity organizations, which currently exist, or as from time to time may be revised. All funds received for student activities must be deposited into the Student Activity Agency Account and no funds shall be directly deposited to a Student Activity Checking Account except from the Student Activity Agency Account.
2. Authorizes the District Treasurer to establish and maintain a Student Activity Agency Account(s) which is to be audited as part of the Town's annual audit. The interest that is earned on such accounts shall be maintained in the Agency Account and distributed annually among the Student Activity Checking Accounts as directed by the procedures established by the Superintendent.
3. Authorizes Student Activity Checking Accounts for use by the Associate Principals with specific maximum balances established annually for each school by vote of the School Committee. Payments for expenditures shall be made, whenever possible, by check, debit, or EFT directly from the Student Activity Checking Account. Reimbursements to personal credit card holders shall require the prior authorization of the Superintendent. Signatory authorization for Student Activity Checking Accounts shall be restricted to the Associate Principal and (Superintendent or Treasurer). Student Activity Checking Accounts shall be audited annually in accordance with DESE guidelines.
4. Directs Associate Principals to provide the Treasurer with a bond in an amount agreeable to the Treasurer.
5. Shall annually, prior to the start of each school year, vote to establish or change the maximum balance that may be on deposit in each Student Activity Checking Account.

For accounts with maximum balance limits that exceed \$25,000.00, the School Committee shall consider, in accordance with DESE guidelines, that an audit be conducted by an outside audit firm every three years

Graduating Class Funds

Funds held on behalf of graduating classes are to be held within the Student Activity Checking Account for the High School. Such funds shall be designated by the class' Year of Graduation.

Once a class has graduated from High School, their funds should be removed from the High School Student Activity Checking Account no later than three months from the date of graduation. It is the responsibility of the class officers to arrange for these funds to be removed from the High School

Activity Checking Account. When requested, and once all outstanding financial obligations of the graduating class have been met, the remaining balance should be removed from the fund by check transfer payable to the Class of XXXX. Checks payable to individual members of the graduating class are not permitted.

Upon graduation, the class balance shall be disbursed in accordance with the class vote. If there is no such vote, the funds will be transferred to the remaining class accounts during the graduating class's final year.

Class officers should be given a copy of this policy during the course of their senior year to ensure their knowledge of their obligations to perform under this policy.

Inactive Student Activities

When a student activity ceases to be active for a period of three years or more the Principal or other authorized administrator shall require the following actions:

1. obtain written notice from the faculty advisor or student officer that the activity will cease to be a viable account. If unable to obtain such notification the Principal shall request action to close the account from the School Committee.
2. Identify in writing all assets of the student activity. The disposition of any assets shall be determined by the School Committee and may not benefit specific individuals.
3. Annually notify all students of the required actions if an activity ceases to exist.

Student Activity Deficits

Individual student activity accounts are not permitted to be in a deficit position. Whenever a deficit exists that is not the result of timing, the Superintendent shall recommend remedial action to the School Committee in a timely manner.

CROSS REFS: JJA – Student Organizations

STUDENT LATE NIGHT OR OVERNIGHT TRAVEL

All student trips which include late night or overnight travel must have prior approval of the School Committee. Initial approval by the School Committee is required before engaging students in fundraising activities. The School Committee will also consider the educational value of the trip in relation to the cost prior to granting initial approval. Overnight trips should offer significant educational benefits to students that clearly justify the time and expense of the trip.

Final approval will not be granted until all preparations for the trip have been completed including, but not limited to, all logistical details involving transportation, accommodation arrangements and fundraising efforts. The School Committee requires that final approval be sought no less than 30 days prior to the scheduled trip dates.

Teachers and other school staff are prohibited from soliciting for privately run trips through the school district and in the schools. The School Committee will only review school-sanctioned trips for approval. The School Committee will not review or approve trips that are privately organized and run without school sanctioning.

SOURCE: MASC March 2004
Adopted for LSSC Policy Manual: 12/21/21

CROSS REFS.: IJOA, Field Trips

LEGAL REFS.: M.G.L. 69:1B; 71:37N

STUDENT TRAVEL REGULATIONS

1. Transportation

The use of vans or private automobiles for trips planned to include late night or overnight student travel is prohibited. Late night or overnight trips will use commercial motor coaches.

Trips planned to include late night or overnight student travel will include a pre-trip check of companies, drivers, and vehicles. CORI and/or background checks will be conducted in accordance with Massachusetts General Laws and School Committee Policy.

The Superintendent or designee will ensure that the selected carrier is licensed for passenger transportation by the Federal Motor Carrier Safety Administration (FMCSA). The district will not contract with any carrier that has a safety rating of “conditional” or “unsatisfactory”. FMCSA ratings are available at <https://ai.fmcsa.dot.gov/SMS/>.

The contract with the carrier will prohibit the use of subcontractors unless sufficient notice is given to the district that allows verification of the subcontractor’s qualifications.

2. Trip Scheduling

Overnight accommodations should be made in advance with student safety and security in mind. Whenever possible, trip schedulers should avoid planning student travel between the hours of midnight and 6:00 a.m., due to the increased risk of vehicular accidents during this time period.

Whenever possible, overnight trips should be scheduled on weekends or during school vacations to minimize lost classroom time. Non-academic field trips are considered “optional school programs” and do not count toward meeting structured learning time requirements. (Refer to the Massachusetts Dept. of Elementary and Secondary Education publication Student Learning Time Regulations Guide)

Trip itineraries must leave enough time for drivers to rest in conformity with federal hour-of-service requirements and common sense.

Trip scheduling should take into account the likelihood of delays due to weather, traffic, stragglers, and other unanticipated factors.

If substantially all members of a class are participating in a trip, the school should provide appropriate substitute activities for any students not participating.

3. Fundraising

The amount of time to be devoted to fundraising should be reasonable and commensurate with students’ obligations for homework, after-school activities, and jobs.

Group fundraising activities are preferred. Students should not be assigned individual fundraising targets.

If students are charged individual fees for participation, every effort should be made to provide scholarships where needed.

INTERSCHOLASTIC ATHLETICS

The School Committee believes that students will benefit from the experiences in self-discipline and team effort made possible through participation in inter-school sports.

Participation in interscholastic athletics will be subject to approval by the School Committee and will be in accordance with regulations and recommendations of the Massachusetts Interscholastic Athletic Association.

At the high school level, interscholastic athletic competition will include a variety of sports. Students will be allowed to participate in individual sports on the basis of their abilities and desire. Additionally, intramural athletic activities will be offered as an outgrowth of class instruction in physical education.

The School Committee is aware that team participation in athletic contests by members of the student body requires that "away games" be scheduled. It also recognizes that there is a need to regulate certain aspects of student participation in such contests. Therefore, the Superintendent will establish regulations to ensure the safety and well being of students and staff members who participate in these activities.

ATHLETIC CONCUSSION POLICY

The purpose of this policy is to provide information and standardized procedures for persons involved in the prevention, training management and return to activity decisions regarding students who incur head injuries while involved in extracurricular athletic activities⁴ including, but not limited to, interscholastic sports, in order to protect their health and safety as required by Massachusetts law and regulations. The requirements of the law apply to all public middle and high schools, however configured, serving grades six through high school graduation. In addition to any training required by law, the following persons shall complete one of the head injury safety training programs approved by the Massachusetts Department of Public Health (DPH) as found on its website: coaches; certified athletic trainers; trainers; volunteers; school and team physicians; school nurses; athletic directors; directors responsible for a school marching band; employees or volunteers; and students who participate in an extracurricular activity and their parents/guardians.

Upon the adoption of this policy by the School Committee, the Superintendent shall ensure that DPH receives an affirmation on school district letterhead that the district has developed policies and the School Committee has adopted a final policy in accordance with law. This affirmation shall be updated by September 30, 2013 and every two years thereafter upon review or revision of its policies.

The Superintendent shall maintain or cause to be maintained complete and accurate records of the district's compliance with the requirements of the Concussion Law, and shall maintain the following records for three years or, at a minimum, until the student graduates, unless state or federal law requires a longer retention period:

1. Verifications of completion of annual training and receipt of materials;
2. DPH Pre-participation forms and receipt of materials;
3. DPH Report of Head Injury Forms, or school based equivalents;
4. DPH Medical Clearance and Authorization Forms, or school based equivalents; and
5. Graduated reentry plans for return to full academic and extracurricular athletic activities.

This policy also applies to volunteers who assist with extracurricular athletic activities. Such volunteers shall not be liable for civil damages arising out of any act or omission relating to the requirements of law, unless such volunteer is willfully or intentionally negligent in his act or omission.

Most student athletes who sustain a concussion can fully recover as long as their brain has time to heal before sustaining another hit; however, relying only on an athlete's self-report of symptoms to determine injury recovery is inadequate as many high school athletes are not aware of the signs and symptoms or the severity concussive injuries pose, or they may feel pressure from coaches, parents/guardians, and/or

⁴ Extracurricular Athletic Activity means an organized school sponsored athletic activity generally occurring outside of school instructional hours under the direction of a coach, athletic director or marching band leader including, but not limited to, Alpine and Nordic skiing and snowboarding, baseball, basketball, cheer leading, cross country track, fencing, field hockey, football, golf, gymnastics, horseback riding, ice hockey, lacrosse, marching band, rifle, rugby, soccer, skating, softball, squash, swimming and diving, tennis, track (indoor and outdoor), ultimate frisbee, volleyball, water polo, and wrestling. All interscholastic athletics are deemed to be extracurricular athletic activities.

teammates to return to play as quickly as possible. One or more of these factors will likely result in under-diagnosing the injury and a premature return to play. Massachusetts General Laws and Department of Public Health regulations make it imperative to accurately assess and treat student athletes when concussions are suspected.

Student athletes who receive concussions may appear to be “fine” on the outside, when in actuality they have a brain injury and are not able to return to play. Incurring a second concussion can prove to be devastating to a student athlete. Research has shown that young concussed athletes who return to play before their brain has healed are highly vulnerable to more prolonged post-concussion syndrome or, in rare cases, a catastrophic neurological injury known as Second Impact Syndrome.

The following protocol will discuss and outline what a concussion is, the mechanism of injury, signs and symptoms, management and return to play requirements, as well as information on Second Impact Syndrome and past concussion syndrome. Lastly, this policy will discuss the importance of education for our athletes, coaches and parents/guardians and other persons required by law.

This protocol should be reviewed on a yearly basis with all staff to discuss the procedures to be followed to manage sports-related concussions. This protocol will also be reviewed on a yearly basis by the athletic department as well as by nursing staff. Any changes in this document will be approved by the school committee and given to athletic staff, including coaches and other school personnel in writing. An accurate synopsis of this policy shall be placed in the student and faculty handbooks.

LEGAL REFS.: M.G.L. 111:222; 105 CMR 201.000

Adopted for LSSC Policy Manual: 12/21/21

HEAD INJURY PROTOCOL

ALL HEAD INJURIES, REGARDLESS OF WHERE THEY HAPPEN MUST BE REPORTED TO THE L-S HEALTH OFFICE. FORMS AND INSTRUCTIONS FOR HEALTH INJURY PROTOCOL CAN BE FOUND ON THE NURSES WEBSITE

(www.lsrhs.net/families/nurses/head_injury_concussion_links)

Head Injuries related to Inter-Scholastic sports, see the L-S Athletics website

(www.lsrhs.net/LS_athletics) under the “Head Injury” top tab.

Head Injuries that Occur at School or School-Sponsored Events that are **NOT** Related to Sports:

If a student suffers a head injury at school in a non-Inter-Scholastic sport (e.g. during a class) the staff member who witnessed the head injury accident, or was made aware of such accident, must immediately accompany the student to the Health Office. The staff member who witnessed or was made aware of such incident must complete an Accident Report Form and forward to the Health Office. A copy of this form is available at the Health Office and on the LSRHS website. The staff member should also contact the student’s school guidance counselor. The nurses will contact the parents/guardians to notify them of the incident.

Head Injuries that Occur at Home or not During School or a School Sponsored Event:

If the head injury did not happen at school or a school event, the parent/guardian must notify the Health Office and their child’s Associate Principal. Parent/Guardian should also complete the Head Injury Report Form located on the LSRHS website. This form must be forwarded to the school nurse. Parent/guardian may fax the form directly to the Health Office at 978-639-3090.

Students with diagnosed concussion must file a Post Sports Related Head Injury Medical clearance and Authorization Form located on the LSRHS website with the Health Office when cleared by their physician.

Please contact the student’s school guidance counselor for re-entry procedures.

LSSC Amended and Adopted: 12/21/21

ATHLETIC CONCUSSION REGULATIONS

Section I. What is a Concussion?

A concussion is defined as a transient alteration in brain function without structural damage, but with other potentially serious long-term ramifications. In the event of a concussion, the brain sustains damage at a microscopic level in which cells and cell membranes are torn and stretched. The damage to these cells also disrupts the brain at a chemical level, as well as causing restricted blood flow to the damaged areas of the brain, thereby disrupting brain function. A concussion, therefore, is a disruption in how the brain works; it is not a structural injury. Concussions are difficult to diagnose because the damage cannot be seen. A MRI or CT Scan cannot diagnose a concussion, but they can help rule out a more serious brain injury to a student athlete. Because concussions are difficult to detect, student athletes must obtain medical approval before returning to athletics following a concussion.

Section II. Mechanism of Injury:

A concussion is caused by a bump, blow or jolt to the head or body. Any force that causes the brain to bounce around or twist within the skull can cause a concussion. A bump, blow or jolt to the head or body can be caused by either indirect or direct trauma. The two direct mechanisms of injury are coup-type and contrecoup-type. Coup-type injury is when the head is stationary and struck by a moving object such as another player's helmet, a ball, or sport implement, causing brain injury at the location of impact. Contrecoup-type injury occurs when the head is moving and makes contact with an immovable or slowly moving object as a result of deceleration, causing brain injury away from the sight of impact. Indirect forces are transmitted through the spine and jaw or blows to the thorax that whip the head while the neck muscles are relaxed. Understanding the way in which an injury occurred is vital in understanding and having a watchful eye for athletes who may exhibit symptoms of a concussion so these student athletes can receive the appropriate care.

Section III. Signs and Symptoms:

Signs (what you see):

- Confusion
- Forgets plays
- Unsure about game, score, opponent
- Altered coordination
- Balance problems
- Personality change
- Slow response to questions
- Forgets events prior to injury (retrograde amnesia)
- Forgets events after injury (anterograde amnesia)
- Loss of consciousness (any duration)

Symptoms (reported by athlete):

- Headache
- Fatigue
- Nausea or vomiting
- Double vision/ blurry vision
- Sensitivity to light (photophobia)
- Sensitivity to noise (tinnitus)
- Feels sluggish
- Feels foggy
- Problems concentrating
- Problems remembering
- Trouble with sleeping/ excess sleep
- Dizziness
- Sadness
- Seeing stars
- Vacant stare/ glassy eyed
- Nervousness
- Irritability
- Inappropriate emotions

If any of the above signs or symptoms are observed after a suspected blow to the head, jaw, spine or body, they may be indicative of a concussion and the student athlete must be removed from play immediately and not allowed to return until cleared by an appropriate allied health professional.

Section IV. Management and Referral Guidelines:

1. When an athlete loses consciousness for any reason, the athletic trainer will start the EAP (Emergency Action Plan) by activating EMS; check ABC's (airway, breathing, circulation); stabilize the cervical spine; and transport the injured athlete to the appropriate hospital via ambulance. If the athletic trainer is not available, the coach should immediately call EMS, check ABCs and not move the athlete until help arrives.
2. Any athlete who is removed from the competition or event and begins to develop signs and symptoms of a worsening brain injury will be transported to the hospital immediately in accordance with the EAP. **Worsening signs and symptoms requiring immediate physician referral include:**
 - A. Amnesia lasting longer than 15 minutes
 - B. Deterioration in neurological function
 - C. Decreasing level of consciousness
 - D. Decrease or irregularity of respiration
 - E. Decrease or irregularity in pulse
 - F. Increase in blood pressure

- G. Unequal, dilated, or unreactive pupils
 - H. Cranial nerve deficits
 - I. Any signs or symptoms of associated injuries, spine or skull fracture, or bleeding
 - J. Mental-status changes: lethargy, difficulty maintaining arousal, confusion, agitation
 - K. Seizure activity
 - L. Vomiting/ worsening headache
 - M. Motor deficits subsequent to initial on-field assessment
 - N. Sensory deficits subsequent to initial on-field assessment
 - O. Balance deficits subsequent to initial on-field assessment
 - P. Cranial nerve deficits subsequent to initial on-field assessment
 - Q. Post-Concussion symptoms worsen
 - R. Athlete is still symptomatic at the end of the game
3. After a student athlete sustains a concussion, the athletic trainer will use the Standardized Assessment for Concussion (SAC) to assess and document the student athlete's concussion. The athletic trainer will also report on the student athlete's signs and symptoms by using the Signs and Symptoms Check-List. On the signs and symptoms checklist, the athletic trainer will also check pulse and blood pressure of each student athlete with a suspected concussion. After the initial evaluation of a concussion, all signs and symptoms will be tracked on the computer using the ImPact Test.
 4. Any athlete who is symptomatic but stable is allowed to go home with their parent(s)/guardian(s) following the head injury.
 - A. If the head injury occurs at practice, parent(s)/guardian(s) will immediately be notified and must come and pick up the student athlete and talk to the certified athletic trainer in person.
 - B. If the injury occurs at a game or event, the student athlete may go home with the parent/guardian(s) after talking with the certified athletic trainer.
 - C. Parent(s)/guardian(s) will receive important information regarding signs and symptoms of deteriorating brain injury/function prompting immediate referral to a local emergency room as well as return to play requirements. Parent(s)/guardian(s), as well as student athletes, must read and sign the Concussion Information and Gradual Return to Play form and bring it back to the certified athletic trainer before starting with the return to play protocol.

V. Gradual Return to Play Protocol:

1. Student athletes, with the consent of their parent(s)/guardian(s), will start taking the ImPact Test **(or other approved test identified by the School District)**. The ImPact Test is a tool that helps manage concussions, determine recovery from injury, and is helpful in providing proper communication between coaches, parents/guardians and clinicians. The ImPact Test is a neurocognitive test that helps measure student athletes' symptoms, as well as test verbal and visual memory, processing speed and reaction time. It is **mandatory** for all student athletes to take the ImPact Test for a baseline score in accordance with Massachusetts State Law. The law

states that all public schools must develop safety protocols on concussions and all public schools must receive information on past concussion history. The ImPact Test appears to be a promising tool in monitoring a student athlete's prior concussions, as well as any future concussions.

2. Each student athlete will complete a baseline test at the beginning of their sport season. **All student athletes and club cheerleading members will undergo ImPact testing.** Student athletes will be re-tested every other year. If a student athlete plays more than one sport during the academic year, their test will remain valid. For example, if a soccer student athlete also plays basketball in the winter, the student athlete will not have to take the ImPact Baseline Test again in the winter. If a student athlete posts scores below the norm, the student athlete will be re-tested at another time with either the certified athletic trainer or school nurse. Student athletes cannot begin practice until a valid baseline score is obtained during their designated time to take the test.
 - A. At the beginning of every sport season, student athletes are required to complete a concussion history form and return it to the athletic department. This information will be recorded in the student information system for tracking purposes.
 - B. Following any concussion the athletic trainer must notify the athletic director and school nurses.
 - C. Following a concussion the student athlete will take a **post-injury test within 24 to 48 hours following the head injury. STUDENT ATHLETES WILL NOT BE ALLOWED TO MOVE ON TO FUNCTIONAL/PHYSICAL TESTING UNTIL THEIR IMPACT TEST IS BACK TO THE BASELINE SCORE AND ASYMPTOMATIC.** After a student athlete takes their first post-injury test, the student athlete will not be re-tested again for **5 days.**
 - D. If, after the first post-injury ImPact test, the athlete is not back to their baseline the parent/guardian(s) will be notified, and the student athlete will be referred to their healthcare provider and must have the Concussion Information and Gradual Return to Play form signed by a physician, physician assistant, licensed neuropsychologist or nurse practitioner stating when the athlete is allowed to return to play.
 - E. Following a post-injury test, the certified athletic trainer will take the Concussion Information and Gradual Return to Play form signed by the parent(s)/guardian(s) and fill in the date of all post-injury tests taken by each student athlete.
 - F. The certified athletic trainer will also document the date on which the athlete is asymptomatic and sign the document agreeing that all the above statements are true and accurate.
 - G. Once the athlete starts on the exertional post concussion tests, the parent(s)/guardian(s) will be notified and the athlete will be sent home with all signed documents relating to head injury. At this time the parent/guardian(s) must bring the student athlete to a licensed physician, licensed neuropsychologist, licensed physician assistant, nurse practitioner or other appropriately trained or licensed healthcare professional to be medically cleared for participation in the extracurricular activity.
 - H. **Student athletes who continue to exhibit concussion symptoms for a week or more must be evaluated by a physician before returning to play.**

- I. Once a student athlete's post-injury test is back at the student athlete's baseline score, the student athlete will go through 5 days of Exertional Post Concussion Tests. The student athlete must be asymptomatic for all functional and physical tests to return to play (RTP). All tests will be administered by a certified athletic trainer.

Exertional Post Concussion Tests:

- A. Test 1:** (30% to 40% maximum exertion): Low levels of light physical activity. This will include walking, light stationary bike for about 10 to 15 minutes. Light isometric strengthening (quad sets, UE light hand weights, ham sets, SLR's, resistive band ankle strengthening) and stretching exercises.
- B. Test 2:** (40% to 60% maximum exertion): Moderate levels of physical activity. Treadmill jogging, stationary bike, or elliptical for 20 to 25 minutes. Light weight strength exercises (resistive band exercises UE and LE, wall squats, lunges, step up/downs. More active and dynamic stretching.
- C. Test 3:** (60% to 80% maximum exertion). Non-contact sports specific drills. Running, high intensity stationary bike or elliptical 25 to 30 minutes. Completing regular weight training. Start agility drills (ladder, side shuffle, zig-zags, carioca, box jumps, and hurdles).
- D. Test 4:** (80% maximum exertion). Limited, controlled sports specific practice and drills.
- E. Test 5:** Full contact and return to sport with monitoring of symptoms.

Section VI. School Nurse Responsibilities:

1. Assist in testing all student athletes with baseline and post-injury ImPact testing.
2. Participate and complete the CDC training course on concussions. A certificate of completion will be recorded by the nurse leader yearly.
3. Complete symptom assessment when student athlete enters Health Office (HO) with questionable concussion during school hours. Repeat in 15 minutes.
4. Observe students with a concussion for a minimum of 30 minutes.
5. If symptoms are present, notify parent/guardian(s) and instruct parent/guardian(s) that student must be evaluated by an MD.
 - (a) If symptoms are not present, the student may return to class.
6. If symptoms appear after a negative assessment, MD referral is necessary.
7. Allow students who are in recovery to rest in HO when needed.
8. Develop plan for students regarding pain management.
9. School nurse will notify teachers and guidance counselors of any students or student athletes who have academic restrictions or modifications related to their concussion.
10. Educate parents/guardians and teachers about the effects of concussion and returning to school and activity.
11. If injury occurs during the school day, inform administrator and complete accident/incident form.
12. Enter physical exam dates and concussion dates into the student information system.

Section VII. School Responsibilities:

1. Review and, if necessary, revise, the concussion policy every 2 years.

2. Once the school is informed of the student's concussion, a contact or "point person" should be identified (e.g. the guidance counselor, athletic director, school nurse, school psychologist or teacher).
3. Point person to work with the student on organizing work assignments, making up work and giving extra time for assignments and tests/quizzes.
4. Assist teachers in following the recovery stage for student.
5. Convene meeting and develop rehabilitative plan.
6. Decrease workload if symptoms appear.
7. Recognize that the student's ability to perform complex math equations may be different from the ability to write a composition depending on the location of the concussion in the brain.
8. Educate staff on the signs and symptoms of concussions and the educational impact concussions may have on students.
9. Include concussion information in student handbooks.
10. Develop a plan to communicate and provide language-appropriate educational materials to parents/guardians with limited English proficiency.

Section VIII. Athletic Director Responsibilities:

1. Provide parents/guardians, athletes, coaches, and volunteers with educational training and concussion materials yearly.
2. Ensure that all educational training programs are completed and recorded.
3. Ensure that all students meet the physical exam requirements consistent with 105 CMR 200.000 prior to participation in any extracurricular athletic activity
4. Ensure that all students participating in extracurricular athletic activity have completed and submitted their pre-participation forms, which include health history form, concussion history form, and MIAA form.
5. Ensure that athletes are prohibited from engaging in any unreasonably dangerous athletic technique that endangers the health or safety of an athlete, including using a helmet or any other sports equipment as a weapon.
6. Ensure that all head injury forms are completed by parent/guardian(s) or coaches and reviewed by the coach, athletic trainer, school nurse and school physician.
7. Inform parent/guardian(s) that, if all necessary forms are not completed, their child will not participate in athletic extracurricular activities.

Section IX. Parent/Guardian Responsibilities:

1. Complete and return concussion history form to the athletic department.
2. Inform school if student sustains a concussion outside of school hours. Complete new concussion history form following new injury.
3. If student suffers a concussion outside of school, complete head injury form and return it to the school nurse.
4. Complete a training provided by the school on concussions and return certificate of completion to the athletic department.

Watch for changes in your child that may indicate that your child does have a concussion or that your child's concussion may be worsening. Report to a physician:

- A. Loss of consciousness
 - B. Headache
 - C. Dizziness
 - D. Lethargy
 - E. Difficulty concentrating
 - F. Balance problems
 - G. Answering questions slowly
 - H. Difficulty recalling events
 - I. Repeating questions
 - J. Irritability
 - K. Sadness
 - L. Emotionality
 - M. Nervousness
 - N. Difficulty with sleeping
5. Encourage your child to follow concussion protocol.
 6. Enforce restrictions on rest, electronics and screen time.
 7. Reinforce recovery plan.
 8. Request a contact person from the school with whom you may communicate about your child's progress and academic needs.
 9. Observe and monitor your child for any physical or emotional changes.
 10. Request to extend make up time for work if necessary.
 11. Recognize that your child will be excluded from participation in any extracurricular athletic event if all forms are not completed and on file with the athletic department.

Section X. Student and Student Athlete Responsibilities:

1. Complete Baseline ImPact Test prior to participation in athletics.
2. Return required concussion history form prior to participation in athletics.
3. Participate in all concussion training and education and return certificate of completion to the athletic department prior to participation in athletics.
4. Report all symptoms to athletic trainer and/ or school nurse.
5. Follow recovery plan.
6. **REST.**
7. **NO ATHLETICS.**
8. **BE HONEST!**
9. Keep strict limits on screen time and electronics.
10. Don't carry books or backpacks that are too heavy.
11. Tell your teachers if you are having difficulty with your classwork.
12. See the athletic trainer and/or school nurse for pain management.
13. Return to sports only when cleared by physician and the athletic trainer.
14. Follow Gradual Return to Play Guidelines.

Report any symptoms to the athletic trainer and/or school nurse and parent(s)/guardian(s) if any occur after return to play.

15. Return medical clearance form to athletic trainer prior to return to play.

16. Students who do not complete and return all required trainings, testing and forms will not be allowed to participate in sports.

Section XI. Coach & Band Instructor Responsibilities:

1. Participate in Concussion Education Course offered by the National Federation of State High School Associations (NFHS) on a yearly basis. Complete certificate of completion and return to the athletic department.
2. Ensure all student athletes have completed ImPact baseline testing before participation.
3. Ensure all student athletes have returned concussion history and health history form prior to participation in athletics.
4. Complete a head injury form if their player suffers a head injury and the athletic trainer is not present at the athletic event. This form must be shared with the athletic trainer and school nurse.
5. Ensure all students have completed a concussion educational training and returned their certificate of completion prior to participation in athletics.
6. Remove from play any student athlete who exhibits signs and symptoms of a concussion.
7. Do not allow student athletes to return to play until cleared by a physician and athletic trainer.
8. Follow Gradual Return to Play Guidelines.
9. Refer any student athlete with returned signs and symptoms back to athletic trainer.
10. Any coach, band instructor, or volunteer coach for extracurricular activities shall not encourage or permit a student participating in the activity to engage in any unreasonably dangerous athletic technique that unnecessarily endangers the health of a student athlete, including using a musical instrument, helmet or any other sports equipment as a weapon.

Section XII. Post Concussion Syndrome:

Post Concussion Syndrome is a poorly understood condition that occurs after a student athlete receives a concussion. Student athletes who receive concussions can have symptoms that last a few days to a few months, and even up to a full year, until their neurocognitive function returns to normal. Therefore, all school personnel must pay attention to and closely observe all student athletes for post concussion syndrome and its symptoms. Student athletes who are still suffering from concussion symptoms are not ready to return to play. The signs and symptoms of post concussion syndrome are:

- Dizziness
- Headache with exertion
- Tinnitus (ringing in the ears)
- Fatigue
- Irritability
- Frustration
- Difficulty in coping with daily stress

- Impaired memory or concentration
- Eating and sleeping disorders
- Behavioral changes
- Alcohol intolerance
- Decreases in academic performance
- Depression
- Visual disturbances

Section XIII. Second Impact Syndrome:

Second impact syndrome is a serious medical emergency and a result of an athlete returning to play and competition too soon following a concussion. Second impact syndrome occurs because of rapid brain swelling and herniation of the brain after a second head injury that occurs before the symptoms of a previous head injury have been resolved. The second impact that a student athlete may receive may only be a minor blow to the head or it may not even involve a hit to the head. A blow to the chest or back may create enough force to snap the athlete's head and send acceleration/deceleration forces to an already compromised brain. The resulting symptoms occur because of a disruption of the brain's blood autoregulatory system which leads to swelling of the brain, increasing intracranial pressure and herniation.

After a second impact a student athlete usually does not become unconscious, but appears to be dazed. The student athlete may remain standing and be able to leave the field under their own power. Within fifteen seconds to several minutes, the athlete's condition worsens rapidly, with dilated pupils, loss of eye movement, loss of consciousness leading to coma and respiratory failure. The best way to handle second impact syndrome is to prevent it from occurring altogether. All student athletes who incur a concussion must not return to play until they are asymptomatic and cleared by an appropriate health care professional.

Section XIV. Concussion Education:

It is extremely important to educate coaches, athletes and the community about concussions. On a yearly basis, all coaches must complete the online course called "Concussion In Sports: What You Need to Know". This course is offered by the National Federation of State High School Associations (NFHS). Student athletes also need to understand the importance of reporting a concussion to their coaches, parents/guardians, athletic trainer and other school personnel. Every year student athletes and parents/guardians will participate in educational training on concussions and complete a certificate of completion. This training may include:

- CDC Heads-Up Video Training, or
- Training provided by the school district

The school district may also offer seminars, speakers, and discussion panels on the topic of concussions. Seminars offer an opportunity for the certified athletic trainer, athletic director and nurse leader to speak about concussions on the field at practices and games and to discuss the protocol and policy that the district has enacted. Providing education within the community will offer the residents and parents/guardians of athletes an opportunity to ask questions and voice their concerns on the topic of brain injury and concussions. When it comes to concussions, everyone needs to be aware of the potential dangers and remember that a concussion is a brain injury. Whenever anyone has a doubt about a student athlete with a concussion, **SIT THEM OUT and have them see the appropriate healthcare professional!**

Adopted for LSSC Policy Manual: 12/21/21

STUDENT CONDUCT

The Massachusetts General Laws require the School Committee to adopt written policies, rules and regulations not inconsistent with law, which may relate to study, discipline, conduct, safety and welfare of all students, or any classification thereof, enrolled in the public schools of the District.

Students shall be expected to conduct themselves in a way that the rights and privileges of others are not violated. Student rights, responsibilities and conduct are governed by the policies and regulations set forth in the Program of Studies and Policy Handbook, distributed annually to students.

The implementation of the general rules of conduct is the responsibility of the Associate Principals and the professional staff of the building. In order to do this, the District shall develop specific rules not inconsistent with the law nor in conflict with School Committee policy. These building rules shall be an extension of the District policies by being more specific as they relate to the school.

The purpose of disciplinary action is to restore acceptable behavior. When disciplinary action is necessary, it shall be administered with fairness and shall relate to the individual needs and the individual circumstances.

Students violating any of the policies on student conduct and control will be subject to disciplinary action. The degree, frequency, and circumstances surrounding each incident shall determine the method used in enforcing these policies. Most of the situations which require disciplinary action can be resolved within the confines of the classroom or as they occur by reasonable but firm reprimand, and/or by teacher conferences with the student and/or parents or guardians.

If a situation should arise in which there is no applicable written policy, the staff member shall be expected to exercise reasonable and professional judgment.

CORPORAL PUNISHMENT

State law provides that:

The power of the School Committee or of any teacher or other employee or agent of the Committee to maintain discipline on school property shall not include the right to inflict corporal punishment upon any student.

Adopted for LSSC Policy Manual: 12/21/21

LEGAL REF.: M.G.L. 71:37G

PHYSICAL RESTRAINT OF STUDENTS

Maintaining an orderly, safe environment conducive to learning is an expectation of all staff members of the school district. Further, students of the district are protected by law from the unreasonable use of physical restraint. Such restraint shall be used only in emergency situations of last resort after other lawful and less intrusive alternatives have failed or been deemed inappropriate, and with extreme caution.

When an emergency situation arises, and physical restraint is the only option deemed appropriate to prevent a student from injuring himself or herself, another student or school community member, a teacher or employee or agent of the school district may use such reasonable force needed to protect students, other persons or themselves from assault or imminent, serious, physical harm.

The definitions of forms of restraint shall be as defined in 603 CMR 46.02.

The use of mechanical restraint, medical restraint, and seclusion is prohibited.

Physical restraint, including prone restraint where permitted under 603 CMR 46.03, shall be considered an emergency procedure of last resort and shall be prohibited except when a student's behavior poses a threat of assault, or imminent, serious, physical harm to themselves and/or others and the student is not responsive to verbal directives or other lawful and less intrusive behavior interventions are deemed inappropriate.

The Superintendent will develop procedures identifying:

- Appropriate responses to student behavior that may require immediate intervention;
- Methods of preventing student violence, self-injurious behavior, and suicide including crisis planning and de-escalation of potentially dangerous behaviors among groups of students or individuals;
- Descriptions and explanations of alternatives to physical restraint as well as the school's method of physical restraint for use in emergency situations;
- Descriptions of the school's training and procedures to comply with reporting requirements; including, but not limited to making reasonable efforts to orally notify a parent/guardian of the use of restraint within 24 hours of its imposition;
- Procedures for receiving and investigating complaints;
- Methods for engaging parents/guardians in discussions about restraint prevention and use of restraint solely as an emergency procedure;
- A statement prohibiting: medication restraint, mechanical restraint, prone restraint unless permitted by 603 CMR 46.03(1)(b), seclusion, and the use of physical restraint in a manner inconsistent with 603 CMR 46.00,
- A process for obtaining Associate Principal approval for a time out exceeding 30 minutes.

Associate Principals will identify staff members to serve as a school-wide resource to assist in ensuring proper administration of physical restraint. These staff members will participate in an in-depth training program in the use of physical restraint.

In addition, each staff member will be trained regarding the school's physical restraint policy and accompanying procedures. The Associate Principals will arrange training to occur in the first month of each school year, or for staff hired after the beginning of the school year, within a month of their employment.

Physical restraint is prohibited as a means of punishment, or as a response to destruction of property, disruption of school order, a student's refusal to comply with a school rule or staff directive, or verbal threats that do not constitute a threat of imminent, serious physical harm to the student or others.

Physical restraint is prohibited when it is medically contraindicated for reasons including, but not limited to, asthma, seizures, a cardiac condition, obesity, bronchitis, communication-related disabilities, or risk of vomiting;

The use of "time out" procedures during which a staff member remains accessible to the student shall not be considered "seclusion restraint".

This policy and its accompanying procedures shall be reviewed and disseminated to staff annually and made available to parents/guardians of enrolled students. The Superintendent shall provide a copy of the Physical Restraint regulations to each Associate Principal, who shall sign a form acknowledging receipt thereof.

STUDENT WELFARE

Supervision of Students

School personnel assigned supervision are expected to act as reasonably prudent adults in providing for the safety of the students in their charge.

In keeping with this expected prudence, no teacher or other staff member will leave their assigned group unsupervised except when an arrangement has been made to take care of an emergency.

During school hours or while engaging in school-sponsored activities, students will be released only into the custody of parents/guardians or other persons authorized in writing by a parent or guardian.

Reporting to Authorities - Suspected Child Abuse or Neglect

Any school official or employee shall report any suspected child abuse or neglect as required by M.G.L. Ch. 119, S 51A.

In accordance with the law, the District shall establish the necessary regulations and procedures to comply with the intent of the Act consistent with the District's responsibility to the students, parents/guardians, District personnel, and the community.

Student Safety

Instruction in courses in industrial arts, science, homemaking, art, physical education, health, and safety will include and emphasize accident prevention.

Safety instruction will precede the use of materials and equipment by students in applicable units of work, and instructors will teach and enforce all safety rules set up for the particular courses. These include the wearing of protective eye devices in appropriate activities.

Safety on the Playing Field

The District shall provide safe playing field areas. Precautionary measures, which the District requires, shall include:

- A periodic inspection of the school's playing fields by the Director of Facilities;
- Instruction of students in the proper use of equipment;
- Supervision of both organized and unorganized activity.

Fire Drills and Reporting

The District shall cooperate with appropriate fire departments in the conduct of fire drills. The Superintendent or Associate Principal shall immediately report any incident of unauthorized ignition of any fire within the school building or on school grounds, to the local fire department. Within 24 hours,

the Associate Principal shall submit a written report of the incident to the head of the fire department on a form furnished by the Department of Fire Services. The Associate Principal must file this report whether or not the fire department responded.

STUDENT INSURANCE

A voluntary accident insurance plan operated and administered solely by an outside insurance company may be made available to students. The District has no role in the ownership, operations, or administration of the insurance plan and does not assume any responsibility regarding service, claims, or other matters relating to the insurance plan.

All students participating in interscholastic or intramural competitive athletics shall be required to be covered by a medical insurance plan.

STUDENT HEALTH SERVICES AND REQUIREMENTS

Activities may include identification of student health needs, health screening tests (including eye and hearing screening tests), communicable disease prevention and control, promotion of the correction of remediable health defects, emergency care of the ill and injured, health counseling, health and safety education, and the maintenance of a healthful school environment.

The District recognizes that parent/guardian(s) have the primary responsibility for the health of their students. The school will cooperate with appropriate professional organizations associated with maintaining individual and community health and safety.

The District shall provide the services of a medical consultant who shall render medical and administrative consultative services for personnel responsible for school health and athletics.

Procedures for Emergency at School

School personnel shall give only emergency care to students who become ill or injured on school property, buses, or while under school supervision.

Each year parent/guardian(s) shall supply information indicating where the student is to be taken in case of an emergency; the name, address, and phone number of a neighbor to be contacted in case the parent/guardian is not available; and any allergies or diseases the student might have.

The District shall maintain a Medical Emergency Response Plan, as required by law, and an Emergency Procedures Handbook, which shall be utilized by District personnel for handling emergencies. Emergency procedures shall include the following:

- Provision for care beyond First Aid, which would enable care by the family or its physician or the local Emergency Medical Services agencies. In instances when the EMS is required, every effort shall be made to provide the unit with the student's Emergency Card which lists any allergies or diseases the student might have;
- Information relative to not permitting the administration of any form of medicine or drugs to students without written approval of parent/guardian(s). Requests made by parent/guardian(s) for such administration of medication shall be reviewed and approved by the Associate Principal or designee;
- Provisions for reporting all accidents, cases of injury, or illness to the Superintendent. Provisions shall be made (in all cases of injury or illness involving possible legal or public relations implications) for reporting such to the appropriate executive director of education immediately;
- Prompt reporting by teachers to the Superintendent or designee any accident or serious illness and such reports will be filed with the Business Office.

Student Illness or Injury

In case of illness or injury, the parent or guardian will be contacted and asked to call for the student or provide the transportation.

Transportation of an ill or injured student is not normally to be provided by the school. If the parent/guardian cannot provide transportation and the student is ill or injured, an ambulance may be called. Expenses incurred as a result of emergency ambulance use will not be borne by the District.

Transportation of a student by school personnel will be done only in an emergency and by the individual so designated by the school administrator.

PHYSICAL EXAMINATIONS OF STUDENTS

Every student will be examined for screening in sight, hearing, BMI*, and for other physical problems as provided in the law and regulation in 10th grade; examination for scoliosis in the 9th grade. A record of the results will be kept by the school nurse.

Every 10th grade student is required to submit a general physical examination upon entering school. The results of examinations will be a basis for determining what corrective measures or modifications of school activities, if any, should be recommended. A record of all examinations and recommendations will be kept.

Every candidate for a school athletic team will present the signed consent of parent or guardian in order to participate on a squad and will, with the signed consent of parent or guardian, be thoroughly examined to determine physical fitness. A written report stating the fitness of the student to participate signed by the physician will be sent to the school Athletic Director.

The school physician will make a prompt examination of all students referred to them by the school nurse. They will examine school employees when, in their opinion, the protection of the student's health may require it. Except in an emergency, the school physician will not prescribe for or treat any student.

Whenever the school nurse finds a student suffering from any disease or medical problem, the situation will be reported to the parent or guardian in writing, or by personal visit if remedial treatment is recommended. A copy of the report will be filed at the school.

The school nurse will make a report to the Superintendent of the number of students examined; the number excluded; and the number recommended for treatment or special adjustment of work. In all cases of exclusion or recommendation, the causes will be included in the report.

IMMUNIZATION OF STUDENTS

Students entering school for the first time will be required to present a physician's certificate attesting to immunization against communicable diseases as may be specified from time to time by the Department of Public Health. The only exception to these requirements will be made on receipt of a written statement from a doctor that immunization would not be in the best interests of the child, or by the student's parent or guardian stating that vaccination or immunization is contrary to the religious beliefs of the student or parent/guardian.

COMMUNICABLE DISEASES

The District is required to provide educational services to all school age children who reside within its boundaries. By law, however, admission to school may be denied to any child diagnosed as having a disease whereby attendance could be harmful to the welfare of other students and staff, subject to the District's responsibilities to students with disabilities under the law.

The School Committee recognizes that communicable diseases which may afflict students range from common childhood diseases, acute and short-term in nature, to chronic, life-threatening diseases.

Management of common communicable diseases shall be in accordance with Massachusetts Department of Health guidelines. A student who exhibits symptoms of a communicable disease may be temporarily excluded from school attendance. The District reserves the right to require a physician's statement authorizing the student's return to school.

The educational placement of a student who is medically diagnosed as having a life-threatening communicable disease shall be determined on an individual basis in accordance with this policy and accompanying administrative procedures. Decisions about the proper educational placement shall be based on the student's behavior, neurological development, and physical condition; the expected type of interaction with others in school setting; and the susceptibility to other diseases and the likelihood of presenting risks to others. A regular review of the placement decision shall be conducted to assess changes in the student's physical condition, or based on new information or research that may warrant a change in a student's placement.

In the event a student with a life-threatening communicable disease qualifies for services as a handicapped child under state and federal law, the procedures for determining the appropriate educational placement in the least restrictive environment shall be used in lieu of the procedures designated above.

Neither this policy nor the placement of a student in any particular program shall preclude the administration from taking any temporary actions including removal of a student from the classroom as deemed necessary to protect the health, safety, and welfare of the student, staff, and others.

In all proceedings related to this policy, the District shall respect the student's right to privacy. Only those persons with a direct need to know shall be informed of the specific nature of the student's condition. The determination of those who need to know shall be made by the Superintendent.

ADMINISTERING MEDICINES TO STUDENTS

Medication may not be administered to students while at school unless such medicine is given to them by the school nurse acting under specific written request of the parent or guardian and under the written directive of the student's personal physician (see below for exceptions). If a student has been approved for self-administration, a student who needs medication during the school day may be reminded to take the medicine by the school nurse or other individual designated by the school nurse in the student's medical administration plan. This provision only applies when the school nurse has a medical administration plan in place for the student. No one but the school nurse, and those others listed in the medical administration plan acting within the above restriction, may give any medication to any student.

Exceptions:

The school district shall, through the district nurse leader, register with the Dept. of Public Health and train personnel in the use of epinephrine auto-injectors.

The school district may, in conjunction with the School Physician and the School Nurse Leader, stock nasal naloxone (Narcan) and trained medical personnel and first responders may administer nasal naloxone to individuals experiencing a life threatening opiate overdose in a school setting.

If the school district wishes medical personnel to train non-medical staff in the administration of nasal naloxone, the School Committee shall vote to approve such training and the Superintendent shall ensure that medical personnel have a written protocol which complies with medical directives and regulations from the Dept. of Public Health.

Following consultation with the school nurse, students who fall into the following exceptions may self-administer medications:

1. Students with asthma or other respiratory diseases may possess and administer prescription inhalers.
2. Students with cystic fibrosis may possess and administer prescription enzyme supplements.
3. Students with diabetes may possess and administer glucose monitoring tests and insulin delivery systems.
4. Students with life threatening allergies may possess and administer epinephrine.

SUICIDE

The Superintendent/Principal shall insure that there exists a comprehensive program to reduce both the incidence of student suicide attempts and the likelihood of completed student suicides. Such a program shall be based on the expectation that any adult or student member of the L-S community who becomes aware of self-injurious or suicidal behavior of another will inform a designated person who can provide assistance to the individual at risk, appropriate assistance shall be provided by an identified Response Team.

STUDENT RECOGNITION AND AWARDS

Lincoln-Sudbury recognizes the accomplishment of its students in a variety of areas, including excellence in academics and the arts as well as effort and improvement in academics.

Individual departments, sports teams and other clubs and organizations recognize students' accomplishments with special awards or letters, upon recommendation of the appropriate faculty or staff member or coach.

Social service is highly valued and recognized as well. Each year students are honored at special award ceremonies.

SOURCE: Lincoln-Sudbury Adopted 3/11/03
Adopted for LSSC Policy Manual: 12/21/21

STUDENT FEES, FINES, AND CHARGES

The School Committee recognizes the need for student fees to fund certain school activities. It also recognizes that some students may not be able to pay these fees. While no student will be denied access due to an inability to pay fees, all students will be required to remit charges and fines.

A school may exact a fee or charge only upon Committee approval. The schools, however, may:

Charge students enrolled in certain courses for the cost of materials used in projects that will become the property of the student.

Charge for lost and damaged books, materials, supplies, and equipment.

Students who are indigent are exempt from paying fees. However, indigent students are not exempt from charges for lost and damaged books, locks, materials, supplies, and equipment.

All student fees and charges, both optional and required, will be listed and described annually in each school's student handbook or in some other written form and distributed to each student. The notice will advise students that fees are to be paid and of the penalties for their failure to pay them. Permissible penalties include the denial of participation in extra class activities and graduation exercises and activities while the student is enrolled in the District.

Any fee or charge due to the District and not paid at the end of the school year will be carried forward to the next succeeding school year, as such debts are considered to be debts of the student to the District.

Adopted for LSSC Policy Manual: 12/21/21

STUDENT RECORDS

In order to provide students with appropriate instruction and educational services, it is necessary for the District to maintain extensive and sometimes personal information about them and their families. It is essential that pertinent information in these records be readily available to appropriate school personnel, be accessible to the student's parents or legal guardian and/or the student in accordance with law, and yet be guarded as confidential information.

The Superintendent/Principal shall provide for the proper administration of student records in keeping with state and federal requirements, and shall obtain a copy of the state student records regulations. The temporary record of each student shall be destroyed no later than seven years after the student transfers, graduates or withdraws from the District. Written notice to the eligible student and his/her parent of the approximate date of destruction of the temporary record and their right to receive the information in whole or in part, shall be made at the time of such transfer, graduation or withdrawal. The student's transcript may only be destroyed 60 years following his/her graduation, transfer, or withdrawal from the District.

The Committee wishes to make clear that all individual student records of the District are confidential. This extends to giving out individual addresses, email addresses and telephone numbers.

FAMILY EDUCATIONAL RIGHTS AND PRIVACY ACT (FERPA)

The Family Educational Rights and Privacy Act (FERPA) (20 U.S.C. 1232g; 34 CFR Part 99) is a Federal law that protects the privacy of student education records. The law applies to all schools that receive funds under an applicable program of the U.S Department of Education.

FERPA gives parents certain rights with respect to their children's education records. These rights transfer to the student when he or she reaches the age of 18 or attends a school beyond the high school level. Students to whom the rights have transferred are "eligible students."

- Parents or eligible students have the right to inspect and review the student's education records maintained by the school. Schools are not required to provide copies of records unless, for reasons such as great distance, it is impossible for parents or eligible students to review the records. The school may charge a fee for copies.
- Parents or eligible students have the right to request that a school correct records that they believe to be inaccurate or misleading. If the school decides not to amend the record, the parent or eligible student then has the right to a formal hearing. After the hearing if the school still decides not to amend the record, the parent or eligible student has the right to place a statement with the record setting forth his or her view about the contested information.
- Generally, schools must have written permission from the parent or eligible student in order to release any information from a student's education record. However, FERPA allows schools to disclose those records, without consent to the following parties or under the following conditions (34 CFR 99.31):
 - School officials with legitimate educational interest. A school official is someone the institution has employed, contracted with, or has an official relationship with who would need to access pertinent educational data to perform his/her designated job functions. A legitimate educational interest is a "need to know" that is necessary for employees to carry out their responsibilities in support of Lincoln Sudbury's educational mission.
 - Other schools to which a student is transferring;
 - Specified officials for audit or evaluation purposes;
 - Appropriate parties in connection with financial aid to a student;
 - Organizations conducting certain studies for or on behalf of the school;
 - Accrediting organizations;
 - To comply with a judicial order or lawfully issued subpoena;
 - Appropriate officials in cases of health and safety emergencies; and
 - State and local authorities, within a juvenile justice system, pursuant to specific State law

Schools may disclose without consent, "directory" information such as a student's name, address, telephone number, date and place of birth, honors and awards, and dates of attendance. However, schools must tell parents and eligible students about directory information and allow parents and eligible students a reasonable amount of time to request that the school not disclose directory information about them. Schools must notify parents or eligible students annually of their rights under FERPA. The actual means of notification (special letter, inclusion in a PTA bulletin, student handbook, or newspaper article)

is left to the discretion of each school. For additional information or technical assistance, you may call (202) 260-3887 (voice). Individuals who use TDD may call the Federal Information Relay Service at 1-800-877-8339.

Adopted for LSSC Policy Manual: 12/21/21

STUDENT PHOTOGRAPHS

Individual schools may arrange, in cooperation with the school's parent organization, student council, designated student committee, or a staff committee, to take individual student and/or class group pictures.

Individual and/or class group pictures may be taken at the school facility and during the regular school day hours. The pictures shall be made available for purchase by students and/or parents/guardians on a voluntary basis. The Superintendent/Principal or their designee shall have final authority in authorizing the picture-taking program and will be responsible for overseeing the process.

Students may be required to have an individual picture taken for the cumulative file or identification purposes; however, no student shall be pressured or required to purchase photographs.

The purpose of the policy is to:

Enhance the safety of students through visual identification in an emergency situation.

Facilitate the social, educational, and administrative activities conducted in the school.

Provide a service to parents/guardians and students.

Allow the profits gained from the picture-taking program to be used by the sponsoring group and authorized by the Superintendent/Principal.
